PROFESSIONAL SUMMARY

Final-year B.E. Mechanical Engineering student with hands-on exposure to manufacturing processes, welding, machine operations, basic automation systems, and technical documentation through internships. Strong analytical mindset, disciplined work ethic, and keen interest in industrial automation, control systems, manufacturing, and process engineering.

EDUCATION

Government College of Engineering, Erode **2023 – 2027**
B.E. Mechanical Engineering *CGPA: 7.60*

Sowdaambikaa Matric Higher Secondary School, Thottiyam, Tamil Nadu **2022 – 2023**
Higher Secondary Certificate (HSC) *82.00%*

INTERNSHIP EXPERIENCE

Carsonly, Chennai, Tamil Nadu
Intern – Mechanical Engineering

- Gained exposure to basic automobile systems, manufacturing practices, and workshop tools.
- Assisted in basic dismantling and assembly activities while observing diagnostic procedures.
- Learned fundamental vehicle maintenance and service processes.

Jagannathan Engineering Works, Trichy, Tamil Nadu
Intern – Mechanical Engineering

- Gained practical exposure to welding techniques, shop-floor safety, and machine operations.
- Assisted in basic machine operations and maintenance activities.
- Observed manufacturing workflow and quality inspection practices.
- Learned GD&T fundamentals, material selection processes, and relevant ISO standards.
- Prepared technical documentation as part of internship learning and reporting.

ACADEMIC PROJECT

Ultrasonic Water Level Monitoring System
IoT-Based Monitoring Project

- Developed a water-level monitoring system using an ultrasonic sensor to measure the distance to the water surface.
- Integrated an ESP8266 microcontroller for wireless data transmission and real-time monitoring.
- Monitored water-level data through mobile and PC platforms.
- Implemented monitoring logic using an ESP8266-based setup.

Technologies: ESP8266, Ultrasonic Sensor, IoT, Real-Time Monitoring

SKILLS

Manufacturing: Welding, Machine Operations, Basic Maintenance
Automation & Control: Sensors, Actuators, Basic Control Systems, PLC Fundamentals
Engineering Knowledge: GD&T Fundamentals, Material Selection, Engineering Materials
Quality & Documentation: ISO Standards, Technical Documentation
Project Skills: IoT, ESP8266, Ultrasonic Sensors, Real-Time Monitoring
Soft Skills: Problem Solving, Discipline, Teamwork, Adaptability

ACHIEVEMENTS & ACTIVITIES

- Chess – District and State Level Winner.
- Active participation in technical workshops and college events.

CERTIFICATIONS & WORKSHOPS

- Satellite Technology Workshop – ISRO, Trivandrum.
- DBHPS – Completed 8 Examinations.
- Typewriting English – Junior & Senior.

LANGUAGES

Tamil: Native — **English:** Fluent — **Hindi:** Read and Write
