SUMMAY

Motivated Computer Science Under Graduate with Hands-on experience in Python, Java, Linux, Git, AWS, Jenkins, Docker and CI/CD pipeline. Passionate about Software Development, Cloud Technologies, Devops Practices with experience building academic and automated Projects. A quick learner with eagerness to collaborate and learn Emerging Technologies.

SKILLS

Programming Languages : Python
Devops Tools : Git, Github, Jenkins, Docker, Kubernetes, AWS EC2
Operating Systems : Linux, Windows
Devops Concepts : CI/CD, SDLC, Agile Methodology
Soft Skills : Communication, Team Collaboratio, problem Solving

PROJECT

Blue-Green Deployment
January 2026 - February 2026

- Built a Blue-Green Deployment pipeline on **AWS EC2** to minimize downtime during application releases.
- Configured Deployment workflows using **Git** and **Jenkins** for automated releases. Managed Linux servers and Deployment Environments.
- Utilized **PuTTY** to securely access and manage remote servers.

CI/CD Pipeline using GitHub action
August 2025 - September 2025

- Developed a **CI/CD pipeline** using **GitHub Actions** for automated build and Deployment.
- Automated testing and Deployment workflow to reduce manual Intervention.
- Integrated Github repo with deployment Pipelines for Continuous Delivery.

EDUCATION

Bachelor of Technology **CGPA : 7.9**
Knowledge Institute of Technology • Salem, Tamil Nadu • 2023 – 2027
