CAREER OBJECTIVE

To obtain a challenging position in a reputed organization where I can utilize my technical skills, enhance my knowledge, and contribute to the growth of the company while continuously learning and improving myself.

EDUCATION

Bachelor of Technology in Information Technology **Sep 2023 - Present**

Government College of Engineering, Erode

- CGPA- 8.53/10

TECHNICAL SKILLS

Programming Languages	:	Python, Core Java
Frameworks	:	React.js, Node.js, Flask, Django
Database	:	SQL, MongoDB
Tools	:	VS Code, GitHub, OpenCode, Antigravity AI

INTERNSHIP EXPERIENCE

Java Software Developer Intern - Judah Code Technologies **Jan 2026 - 1 Month**

- Spotify Song Downloader: Developed a full-stack web application using HTML, CSS, JavaScript, Java Spring Boot, and RapidAPI to fetch Spotify song details and provide downloadable links through a responsive user interface.

Web Developer Intern - Litz Tech **Jun 2026 - 1 Month**

- Restaurant Website: Developed a web application using React.js, TypeScript, and CSS to provide online food ordering with menu browsing, cart management, table reservations, and voice-enabled search through a responsive user interface.

PROJECTS

Online Secure Examination System

- Developed a secure online examination platform with Email-OTP authentication, AES/RSA encryption, and AI-based face monitoring using Face-API.js. Implemented audio monitoring using Web Audio API, tab-switch detection, automated evaluation, behavioral logging, and certificate generation. Built using HTML, CSS, JavaScript, Python Flask, MySQL

E-Book to Audio Converter

- The E-Book to Audio Converter is a Flask-based web application that converts PDF documents into MP3 audio files using PyPDF2 and Google Text-to-Speech (gTTS). The application supports multiple languages and provides an accessible solution for users who prefer listening to digital books instead of reading them.

Web-Based Drawing Application

- The Web-Based Drawing Application is an interactive web application developed using Python, Flask, HTML5 Canvas, and JavaScript. It includes drawing tools, shape creation, flood-fill, undo/redo, and image export features. Users can save, view, and edit their drawings through a simple and user-friendly interface.

CERTIFICATIONS

- Introduction to Industry 4.0 and Industrial Internet of Things - NPTEL
- Human-Computer Interaction - NPTEL
- Java Programming Fundamentals - Infosys Springboard
- ChatGPT for Coders - Simplilearn

KEY ACHIVEMENTS

- Earned 18 additional credits toward the B.Tech (Honours) qualification.
- Ranked among national top performers scoring 94% in NPTEL Human-Computer Interaction.
