SHREESAVARIRAJU V

Salem, Tamil Nadu, India | 9363358643 | shreesavariraju@gmail.com

OBJECTIVE

Mechanical Engineering graduate with hands-on experience in engineering design, product design, manufacturing processes, and DFM. Skilled in CAD modeling, product testing, troubleshooting, and SOPs, with exposure to steel manufacturing environments.

SKILLS

Technical Skills: CAD Modeling (SolidWorks, AutoCAD) • DFM • GD&T • SOPs • Troubleshooting • Lean

Soft Skills: Cross-functional Collaboration • Problem-Solving • Adaptability

EXPERIENCE

Parts Executive — TVS 2 months
Managed spare parts inventory and procurement, applying SOPs to improve accuracy and reduce retrieval delays.

Service Technician — OLA Electric 3 weeks
Diagnosed and repaired technical issues using structured troubleshooting and quality checks.

Engineering Intern — SAIL 2 weeks
Gained exposure to steel manufacturing, material handling, and quality/safety practices while collaborating with plant teams.

ENGINEERING PROJECTS

Bio-Based ROV Structure: Designed and 3D-printed a biodegradable flax fibre-reinforced PLA composite ROV structure using DFM principles, achieving a lightweight, corrosion-resistant design with performance comparable to conventional materials

.

Ultrasonic Sensor-Based Road Safety System: Engineered a real-time accident detection system using ultrasonic sensors with automated alert logic, improving collision prevention through a working prototype.

EDUCATION

B.E. Mechanical Engineering — Kumaraguru College of Technology (2022–2026) — CGPA:7.5
HSE — Swamy Vivekananda Vidyalaya, Salem (2021–2022) — 92%
SSLC — Sri Vidya Mandir School (CBSE), Salem (2019–2020) — 78%

CERTIFICATIONS

SolidWorks Additive Manufacturing Associate — Certified in additive manufacturing and 3D printing design using SolidWorks
Fusion 360 (3D Modeling) — Certified through hands-on workshop on CAD design and modeling

LANGUAGES

English, Tamil, Hindi, Kannada
