PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering student with knowledge of Web Development, Data Science, Machine Learning. Seeking opportunities to apply technical skills and contribute to innovative projects while enhancing professional growth.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering Sep 2023 – Present
Nandha Engineering College, Erode, Tamil Nadu. • 8.955 CGPA

HSC-State Board
Pethal Achi Girls Higher Secondary School, Devakottai, Tamil Nadu. • 82% Mar 2022 – May 2023

EXPERIENCE

NXTLOGIC Software Solutions, Coimbatore | Data Science Intern Dec 2024 – Jan 2025

- Completed training in Data Science and Machine Learning concepts.
- Gained hands-on experience in data analysis using Python.
- Worked with data preprocessing and visualization techniques.

CODEBIND TECHNOLOGIES, Coimbatore | Web Development Intern June 2025 – July 2025

- Learned web development concepts and technologies.
- Developed web pages using HTML, CSS, and JavaScript.
- Assisted in testing and debugging websites.

SHELLKODE | Generative AI Intern Dec 2025 – Jan 2026

- Gained hands-on experience with Generative AI concepts and applications.
- Worked with AI tools and techniques for developing intelligent solutions.
- Explored prompt engineering and AI-based application development.

PROJECTS

Portfolio Website
Designed and developed a personal portfolio website to showcase skills, projects, certifications, and achievements through an interactive and responsive interface.

Electricity Bill Calculator
Developed an Electricity Bill Calculator to calculate electricity charges based on power consumption and applicable tariff rates, providing quick and accurate bill estimation.

Online Doctor Appointment Booking System – Demo
Developed an online doctor appointment booking system that enables patients to schedule appointments, manage consultations, access healthcare services efficiently.

Email Spam Detection dashboard
Developed an email spam detection system using Artificial Neural Networks (ANN) for binary email classification. Created an interactive dashboard to display prediction results and improve email filtering efficiency.

Automated Diabetic Retinopathy Detection from Fundus Images
Developed a deep learning-based system to detect diabetic retinopathy from retinal fundus images, supporting early diagnosis through automated image analysis.

PUBLICATIONS & CERTIFICATIONS

Publications

Email Spam Detection Using Deep Learning
Presented a research paper on email spam detection using deep learning techniques at **STESI-2026, Manipal University Jaipur**.

Patent Published: "Online Voting System for Selecting Class Representatives" – Indian Patent Office.

Certifications

- NPTEL – Cloud Computing (IIT Kharagpur) | Elite Certification
- NPTEL – Forests and their Management (IIT Kanpur) | Elite Certification

SKILLS

Programming Languages: Java, C, Python (Basic).
Core Concepts: OOP, Data Structures, Algorithms, Problem Solving, DBMS.
Web Technologies: HTML, CSS, JavaScript.
Tools: VS Code, Git, GitHub, MS Word, Excel, PowerPoint.
Database: MySQL.
Data Analytics & Visualization: Tableau, Data Analysis.
Languages: Tamil, English.

ACHIEVEMENTS

- Participated in a Workshop on Generative AI Tools.
- Participated in Nandha Innovation Day'24 and presented a project titled "Heart Disease Prediction".
- Participated in Nandha Innovation Day'26 and presented a project titled "Email Spam Detection Using Deep Learning".
- Participated in GenAI Spark conducted at Nandha Engineering College.
- Participated in the National Level 24-Hour Hackathon'26 held at Nandha Engineering College.
- Completed GEN AI Camp – Algo University | Generative AI, Multimodal AI Systems & NLP.
