Profile Summary

B.E. Electrical and Electronics Engineering student with practical academic exposure to electrical engineering projects, industrial systems and automation. Gained industry exposure through internships in electrical manufacturing and power system operations, with hands-on experience in MATLAB/Simulink and ESP32-based IoT applications. Strong interest in applying engineering fundamentals to solve practical industrial problems.

Professional Experience

Intern, *400/230kV K R Thoppur Substation* 04/2026 – 05/2026
Salem, India

- Studied the working of substation equipment and observed protection, switching operations and maintenance practices in high-voltage systems.

Intern, *SRIWIN Electricals* 06/2025 – 07/2025
Salem, India

- Gained industrial exposure to Vacuum Circuit Breaker manufacturing processes, testing procedures, and electrical assembly operations.

Intern, *NLC – TPS I Expansion Unit* 12/2025
Neyveli, India

- Acquired hands-on experience with low tension switchgear systems and electrical protection devices.
- Studied electrical power distribution, panel layouts, and equipment used in thermal power plant operations.

Education

Bachelor of Engineering, *Government College Of Engineering* 09/2023 – Present
CGPA- 8.83/10 Salem, Tamil Nadu

- **Honours in Electric Vehicle (EV) Technology -** Specialized coursework in EV powertrains, battery technologies, Battery Management Systems (BMS), EV charging systems, and Power electronics.

Higher Secondary Education, 03/2023
Sri Vidyaa Mandhir Matriculation Higher Secondary School, Nachipatty Namakkal, Tamil Nadu

- 12th - 94.3%

Skills

- Electrical Machines
- Protection and Switchgear
- Network theory
- Effective Communication
- Team Coordination
- MATLAB/Simulink
- Special Electrical Machines
- Leadership
- Critical Thinking
- Wokwi software

Projects

Water level monitoring and leakage detection system, *Mini project* 04/2026

- Developed a water level monitoring and leakage detection system to monitor tank water levels and detect pipeline leaks in real time. The project aimed to reduce water wastage by providing timely alerts and improving efficient water resource management.

E-Vehicle fundamentals 05/2025

- Participated in the Naan Mudhalvan Hackathon, organized by the Government of Tamil Nadu (TNSDC), and developed a project titled **"Accident Alert System"** focused on improving vehicle safety through automated accident detection and alert mechanisms.

Automated Street Light 03/2024

- Designed and presented an automated street light project at an inter-college technical competition at Government College of Technology.

Achievements

Logical League 10/2025

- Secured 1st prize in Logical League at **ELECTROFEST'25 Technical Symposium**, organized by Government College of Engineering, Salem.

Smart India Hackathon (SIH) 17/09/2025

- Contributed to the project **"ERP BASED INTEGRATED STUDENT MANAGEMENT SYSTEM"**, efficiently managing student academic, attendance, examination, and administrative information through a centralized platform.

4×100m Relay 10/2024

- Won 3rd prize in the **4×100m Relay** event at the Anna University Zonal Meet.

Annual Sports Competition 03/2024

- Achieved 1st prize in **KHO-KHO** at the Annual College-Level Sports Competition.

Co-Curricular Activities

National Service Scheme (NSS), *Volunteer*

- Participated in various community service programs such as orphanage visits and local initiatives.

Placement Coordinator

- Served as Student Placement Coordinator, facilitating campus recruitment activities and coordinating between recruiters, faculty, and students.

Sports Member

- Active member of the college Sports Club, contributing to the planning and coordination of sports events, promoting student participation, and working collaboratively with the team to ensure the successful execution of club activities.
