Summary

Motivated Full Stack Developer fresher with hands-on experience in building complete web applications from concept to deployment. Strong understanding of application workflows, problem-solving and clean design principles. Experienced in working across both front-end and back-end modules and collaborating effectively in team environments. Quick learner with a positive attitude, eager to adapt, grow and contribute to real-world projects.

SKILLS

BACKEND	FRONTEND	DATABASE
• Java	• HTML	• SQL
• Spring	• JavaScript	
• SpringBoot	• React	

EDUCATION

Bachelor of Technology - Information Technology(2021-2025)
Sona College Of Technology
CGPA:6.54

12th Grade (2021)
Sri Ragavendra Matric Hr. Sec School | 80.5%

10th Grade (2019)
Sri Ragavendra Matric Hr. Sec School | 74.2%

PROJECTS

Detecting Stress Based on Social Interaction in Social Networks

- Developed a system to identify stress levels by analyzing user interactions and communication patterns on social networking platforms.
- Examined user-generated content such as posts, comments, and engagement behavior to detect emotional and stress-related indicators.
- Applied data analysis techniques to classify users into different stress levels based on behavioral and interaction trends.
- Focused on understanding emotional signals expressed through online social activity to support early stress detection.
- Designed the solution to assist in mental health awareness and proactive monitoring through social data insights.

Library Management System

- Designed and developed a full stack application to manage library operations including book records, user management and borrowing activities.
- Implemented features for adding, updating, searching and deleting books to maintain accurate and organized library data.
- Enabled user functionalities such as book issue, return tracking and availability status to streamline daily library processes.
- Developed secure role-based access for administrators and users to ensure controlled system usage.
- Improved efficiency of library management by automating manual processes and reducing record maintenance effort.

CERTIFICATES

Java Full Stack Developer, Maasmind, Chennai.

Zonal Level Volley Ball Winner – Secured 1st place in zonal-level Volley Ball tournament.
