KAMALNATH G

Java Developer | Backend Engineering

Bengaluru, Karnataka, India | +91 8148346734 | kamalnathg1@gmail.com | linkedin.com/in/kamalnathg | github.com/kamalnath20044

PROFESSIONAL SUMMARY

Java Developer and 2026 B.E. Computer Science and Engineering graduate (CGPA: 8/10) with hands-on project experience in Core Java, OOP, JDBC, MySQL, and Oracle SQL, and foundational knowledge of Spring Boot, Hibernate, and REST APIs. Built academic and personal projects using Java-based technologies and Git/GitHub workflows. Strong problem-solving, debugging, and database skills with a keen interest in backend application development. Seeking an entry-level software engineering role to apply Java and backend development skills while contributing to high-quality software solutions and continuous learning.

TECHNICAL SKILLS

- Languages: Java (Core Java, OOP, basic Data Structures & Algorithms), SQL, JavaScript, HTML5, CSS3
- Backend Development: JDBC, Hibernate, Spring Boot, basic exposure to REST API concepts
- Frontend: React.js
- Databases: MySQL, Oracle SQL (SQL*Plus), Database Design & Normalization
- Tools & Platforms: Git, GitHub, VS Code
- AI-Assisted Development: GitHub Copilot, ChatGPT/Claude for code generation, debugging, unit-test generation, and rapid prototyping within a reviewed, test-driven workflow
- Core Competencies: Problem-Solving, Debugging, Clean Code Practices, Team Collaboration, Communication

PROJECTS

Student Management System *Java | JDBC | MySQL | OOP*

- Built a Java console application with a 3-layer architecture (UI to Service to DAO) managing the full student lifecycle (add, update, delete, search) across a MySQL database using JDBC and Prepared Statements.
- Implemented the DAO design pattern with prepared statements to prevent SQL injection, and applied the Singleton pattern for efficient database connection management.
- Developed a statistics module using Java Streams to compute average CGPA and grade distribution across records, eliminating manual calculation effort.

GitHub: github.com/kamalnath20044

E-Commerce Management System *Java | Spring Boot | React.js | MySQL | JWT*

- Built a full-stack e-commerce application as a learning project, applying basic Spring Boot concepts to create endpoints for product catalogue, cart management, wishlist, and order processing.
- Practiced designing a MySQL schema using Hibernate ORM with entity relationships across users, products, orders, and cart items; connected a React.js frontend using Axios.
- Explored JWT-based authentication with Spring Security to understand role-based access control (ADMIN/USER) for checkout and order-management routes.

INTERNSHIP

Web Development Intern *Rinex Technologies*

- Worked on web development concepts using HTML, CSS, JavaScript, and related technologies.
- Participated in project development, testing, and debugging activities.
- Gained exposure to software development workflows and team collaboration.

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science & Engineering *2022 - 2026*

Excel Engineering College, Komarapalayam, Namakkal, Tamil Nadu | CGPA: 8 / 10

Relevant Coursework: Object-Oriented Programming with Java, Database Management Systems (DBMS), Operating Systems, Computer Networks, basic Data Structures & Algorithms

CERTIFICATIONS

- Java Programming Certification - HackerRank
- Web Development Internship Certificate - Rinex Technologies
