CAREER OBJECTIVE

Motivated and enthusiastic B.E. Computer Science and Engineering (AI & ML) student with a strong interest in software development, artificial intelligence, and emerging technologies. Seeking an opportunity to apply my programming, web development, and problem-solving skills in a professional environment. Eager to contribute to real-world projects, learn industry practices, and continuously develop my technical and professional abilities.

EDUCATION

B.E. Computer Science and Engineering (AI & ML) 2023–2027

Velalar College of Engineering and Technology | CGPA: 5.95

Higher Secondary Education (HSE) 2022–2023

HSE Percentage: 69.95%

INTERNSHIPS

Sparkout Tech Solutions, Coimbatore — Blockchain Internship

- Gained practical exposure to the fundamentals of blockchain technology, including decentralized systems and secure digital data management.
- Learned about blockchain applications in developing secure, transparent, and tamper-resistant digital solutions.
- Developed a basic understanding of blockchain concepts and their potential applications in real-world software systems.

Thiranex Online — Web Development Internship

- Gained hands-on exposure to web development using HTML and CSS.
- Learned to create structured web pages with proper layouts, styling, and user-friendly presentation.
- Developed an understanding of basic front-end development practices and clean, organized web interfaces.

TECHNICAL SKILLS & TOOLS

Programming - Python, Java

Web - HTML, CSS

Tools - Antigravity IDE, OpenCode, Git, GitHub

PROJECTS

AI-Based Role-Optimized Resume Developer and Skill Gap Guidance System

- Developed an AI-based system designed to generate role-specific and optimized resumes based on a user's skills, qualifications, and targeted career role.
- Identifies skills required for a particular job role and compares them with the user's existing skill set to highlight skill gaps.
- Provides skill-gap guidance to help users understand areas for improving their technical knowledge and career readiness.
- Aims to make resume building more relevant to specific job requirements while providing personalized career guidance.

Secure Offline Digital Wallet

- Developed a secure digital wallet concept designed to provide access to digital assets when internet connectivity is limited or unavailable.
- Focused on maintaining security, privacy, and reliable access to wallet information in an offline environment.
- Explored approaches for protecting sensitive wallet data and supporting secure digital transactions.

ACHIEVEMENTS & CERTIFICATIONS

- Secured 1st Prize in the Intra-Department Prompt Event.
- Secured 2nd Prize in the Intra-Department Ideathon Event.
- Power BI Value-Added Course Certificate.

DECLARATION
