MYTHILI LALITHAMBIKA V

ECE Fresher | Electronics & Communication Engineering
Salem, Tamil Nadu | mythilivishwanathan27@gmail.com | linkedin.com/in/mythili-lalithambika-703b05385

CAREER OBJECTIVE

To begin my career in a challenging and growth-oriented environment where I can apply my knowledge in Electronics and Communication Engineering, develop my technical skills, and contribute effectively to the organization.

ACADEMIC PROFILE

Qualification	Institution	%	Year
Diploma – ECE	K.S. Rangasamy Institute of Technology	93.25%	2026
HSC	Model School, Magudanchavadi	99%	2025
SSLC	Model School, Magudanchavadi	67%	2023

TECHNICAL SKILLS

- Python – Basic; Java – Basic; Digital Electronics
- Electronic Devices & Circuits; Microcontrollers & Embedded Systems
- Communication Systems; PCB Design – Basic

PROJECTS

Wireless Weather Monitoring System

- Microcontroller-based system using DHT11 sensor and Arduino UNO.
- Measures temperature and humidity and displays real-time readings on a 16×2 LCD.
- Suitable for agriculture and environmental monitoring.

IoT-Based Smart Supply Chain Management System

- IoT concept for monitoring supply-chain activities using sensors and connected devices.
- Supports real-time tracking and monitoring.

INTERNSHIP

AI & Machine Learning Internship – Livewire Software Institute | 15 Days | Offline

- Learned Python and basic Machine Learning concepts.
- Worked on an AI/ML-based movie recommendation system.

CERTIFICATIONS & ACTIVITIES

- Python Basics – Certificate; Java Basics – Certificate
- AI & Machine Learning Internship – Certificate (Livewire Software Institute)
- Paper Presentation – 2 Certificates; Cyber Security Workshop – 1 Certificate

ACHIEVEMENT & STRENGTHS

- School-Level Kabaddi Winner – 1 Certificate
- Quick learner, self-motivated, good teamwork and communication, adaptable

LANGUAGES

Tamil | English
