PROFILE

Motivated Electrical and Electronics Engineering student with a strong foundation in electronics, embedded systems, and programming. Passionate about learning new technologies and solving real-world problems, seeking an opportunity to apply my technical and problem-solving skills while growing as an engineer.

EDUCATION

B.E Electrical and Electronics Engineering

Kongunadu college of Engineering and Technology	CGPA :7.19	2023 – 2027

HSC

Vimlala Matric Higher Secondary School	Percent: 74%	2022 – 2023

SSLC

Vimala Matric Higher Secondary School	Percent: 100%	2020 – 2021

PROJECTS

Smart IoT Based Energy Meter With Real-Time Load and Cost Monitoring

Designed and developed a smart IoT-based energy meter to monitor real-time electricity consumption, measure electrical parameters such as voltage, current, power, and energy usage using sensors, and implement real-time load monitoring with automatic cost calculation based on energy consumption

Eco-Friendly Solar Panel Cleaning Bot for Residential and Industrial PV Systems

Developed an automated robot for cleaning solar panels in residential and industrial PV systems, designed to efficiently remove dust, dirt, and debris from panel surfaces, thereby reducing manual cleaning effort and maintenance costs while improving overall system performance.

INTERNSHIP

Shree Rice Prowin Private Limited, Trichy (Jun - 2025)

Followed industrial safety standards while gaining hands-on experience in industrial automation, electrical maintenance, and electrical systems used in rice processing operations.

Kothari Sugars And Chemicals Limited, Trichy (Dec-2024)

Assisted in the operation and maintenance of industrial electrical systems, gained practical exposure to industrial automation and power distribution, and followed industrial safety standards while observing manufacturing and process operations.
