MANIVANNAN S G

Senior Software Engineer

9344277211 | manivannan.g@outlook.in | github.com/theMGR | linkedin.com/in/themgr | Bhavani

SUMMARY

Senior Software Engineer with 7+ years of experience building and shipping cross-platform mobile applications for iOS and Android, along with 4 years of backend experience in Java, Spring Boot, and microservices. Specialises in scalable app architecture, REST API integration, and enterprise mobility solutions across logistics and warehouse domains. Able to deliver a full product from mobile app to API to deployment. Proficient in performance optimisation, offline-first architecture, and CI/CD pipelines. Uses AI-assisted development to deliver faster with clean project structure. Comfortable leading end-to-end delivery, from requirements and design to deployment and production support, in fast-paced Agile teams.

SKILLS

Languages & Frameworks: Flutter (Dart), Java, Kotlin, Android SDK

Backend & APIs: Spring Boot, Spring Security (JWT/OAuth), Spring Data JPA/Hibernate, Serverpod, RESTful API Design, Microservices

State Management & Architecture: GetX, Flutter Bloc, Riverpod, Clean Architecture, MVP, MVVM, SOLID Principles

Dependency Injection: GetIt, Kiwi, Dagger, Spring IoC/DI

Databases & Storage: MySQL, SQFlite, Hive, Sembast, Realm, Shared Preferences, Redis (caching)

API & Third-Party Integrations: Retrofit, DIO, GetConnect, OkHttp, Firebase (Auth, FCM, Realtime DB), WebSockets, Google Maps, Google Places, Google Ads, Facebook API, Twitter API, PayPal, Stripe

Version Control & Deployment: Git, Subversion, CI/CD (Codemagic, Fastlane, Github Actions), Google Play Console, App Store Connect

DevOps & Messaging: Docker, Apache Kafka

Testing & Performance: Flutter Widget Testing, Unit Testing, Performance Profiling & Optimisation

Tools & Methodologies: Agile/Scrum, Azure DevOps, JIRA, AI-assisted Development (ChatGPT, Claude, Gemini)

Soft Skills: Analytical Thinking, Problem Solving, Stakeholder Communication, Cross-functional Collaboration, Team Leadership & Mentorship

EXPERIENCE

Senior Software Engineer

Masstech Software *(Freelance / Contract)* *May 2026 – Oct 2026*

Salem

- Built **Masstech Dairy (Aavin BMC)** in Flutter, a cloud-based milk collection app that replaced paper records with digital entry, automated milk quality and quantity logging, real-time transactions, and analytics dashboards for society managers.
- Built **Masstech Society (Aavin Society)**, an offline-first version of the same app for societies with weak or no internet, with Excel and CSV import and export for daily, shift-wise, and farmer-wise reports.
- Designed simple screens and clear alerts for farmers who are new to smartphones.
- Connected the apps to backend REST APIs and handled testing, release, and production support.

Senior Software Engineer

TVS Supply Chain Solutions (White Data Systems India Pvt Ltd) *Mar 2019 – May 2026*

Coimbatore

- Built and maintained cross-platform mobile applications for iOS and Android, serving logistics and warehouse operations and improving user engagement by 30%.
- Designed and built backend REST APIs using Java and Spring Boot in a microservices setup, covering authentication, business logic, and tuned MySQL queries and indexes for fast responses.
- Implemented silent PDF and ZPL printing for warehouse label printers, enabling background printing without user intervention and significantly improving operational throughput.

- Reduced application crash rates by 25% through systematic debugging, root-cause analysis, and targeted performance optimisations.
- Led the end-to-end development lifecycle (mobile and backend), from requirements to deployment and production support, while mentoring junior developers and conducting code reviews, contributing to a 20% improvement in sprint efficiency.

Freelance Android Developer & Stakeholder

Gudmart *Feb 2018 – Feb 2019*

Erode, Coimbatore

- Designed and developed a scalable multi-party e-commerce platform serving five supply chain roles: Manufacturer, Distributor, Wholesaler, Retailer, and Consumer.
- Architected a role-agnostic model where any user can act as both a buyer and a seller without needing separate accounts.
- Built buyer-side flows covering product discovery, seller identification, order placement, and real-time order tracking.
- Developed seller-side modules including store setup, product catalogue management, and full order lifecycle handling.
- Prioritised a clean, minimal UI to keep the experience accessible for users across varying levels of tech familiarity.

Junior Android App & Game Developer

Arrin Solutions *Oct 2015 – Jan 2018*

Coimbatore

- Integrated RESTful APIs using Retrofit and OkHttp for reliable data exchange between mobile clients and backend services.
- Configured Firebase services including push notifications (FCM), real-time database, and user authentication.
- Implemented third-party integrations including Google Maps, Google Places, Facebook API, Twitter API, and Google Ads.
- Developed Android casual games using Unity 3D, including a Google Cardboard VR-compatible experience.
- Managed full Android SDLC independently — from wireframes and development through testing and Play Store deployment.

KEY ACHIEVEMENTS

- Enterprise App Impact: Led development of a warehouse mobility app processing 48,000+ scans per day, directly contributing to a ₹6 Crore business outcome in Q3 2024.
- Crash Rate Reduction: Improved application stability by 25% through disciplined testing, performance profiling, and targeted fixes.
- Best Contributor Award: Recognised for consistently on-time sprint delivery and quality output across multiple Agile release cycles.
- Team Leadership: Drove a 20% improvement in sprint efficiency by leading scrums, mentoring developers, and improving cross-team communication.

PROJECTS

Masstech Dairy (Aavin BMC)

Team Size: 3 | SDK: Flutter | Masstech Software - Freelance/Contract

A cloud-based milk collection management app for dairy cooperative societies. Replaced paper-based records with digital entry, automated milk quality and quantity logging, transparent real-time transactions, and analytics dashboards that help society managers make data-driven decisions.

Play Store: https://play.google.com/store/apps/details?id=app.masstech.dairy

Masstech Society (Aavin Society)

Team Size: 3 | SDK: Flutter | Masstech Software - Freelance/Contract

An offline-first milk collection management app for dairy cooperative societies with weak or no internet. Works fully without a network, keeps all data safely on the phone, imports existing records from Excel and CSV files, and exports daily, shift-wise, and farmer-wise reports to Excel and CSV.

Courier Alliance

Team Size: 4 | SDK: Flutter | Backend: Spring Boot | TVS Supply Chain Solutions

A UK-based last-mile delivery platform that assigns couriers dynamically through a real-time bidding mechanism using geolocation data. Couriers bid for nearby jobs, and the system selects the optimal match to ensure timely and cost-effective delivery execution at scale.

Play Store: https://play.google.com/store/apps/details?id=com.courieralliance.driverca
App Store: https://apps.apple.com/in/app/courier-alliance/id1533237764

i-eXchange

Team Size: 4 | SDK: Flutter | Backend: Spring Boot | TVS Supply Chain Solutions

An India-focused logistics platform for manual courier allocation and streamlined last-mile delivery. Gives dispatchers and drivers real-time visibility and operational control across the full delivery workflow.

Play Store: https://play.google.com/store/apps/details?id=com.iex.driver
App Store: https://apps.apple.com/in/app/i-exchange/id1545190755

Visibility – Warehouse Management

Team Size: 4 | SDK: Flutter | TVS Supply Chain Solutions

A high-throughput warehouse mobility solution handling 48,000+ barcode scans per day. Enabled warehouse staff to perform goods receipt, putaway, picking, and dispatch operations entirely on mobile, reducing manual effort and supporting significant revenue impact in a critical business quarter.

i-Loads Suite (i-Loads, Load Provider, Driver)

Team Size: 5 | SDK: Android | Mar 2019 – May 2021 | TVS Supply Chain Solutions

A logistics ecosystem connecting Load Providers, Brokers, Transporters, and Drivers on a single platform. Delivered as three separate apps: a core logistics hub, a load provider portal for managing freight orders and tracking, and a driver app with live location updates and order completion workflows.

Silk Track

Team Size: 2 | SDK: Flutter | Freelance

A vendor-facing retail management app built for local apparel businesses. Sellers can create and manage their product catalogue and capture customer inquiries as leads. Each approved lead moves through a structured order workflow covering booking confirmation, payment collection, billing, packing, dispatch, and delivery tracking — giving vendors complete visibility over their order lifecycle from inquiry to doorstep.

Gudmart

Team Size: 2 | SDK: Android | Feb 2018 – Feb 2019 | Freelance

A multi-tier e-commerce Android app spanning five supply chain roles — Manufacturer, Distributor, Wholesaler, Retailer, and Consumer. Built around a dual buyer-seller account model so any party can buy and sell without switching accounts. Features include product catalogue management, store setup, order tracking, and a straightforward checkout experience.

Tasti

Team Size: 3 | SDK: Android | Oct 2015 – Jan 2018 | Arrin Solutions

A hyperlocal food marketplace connecting home cooks with nearby customers. Cooks list their dishes with location; customers discover and order food using GPS and Google Maps. Supports Cash on Delivery and PayPal payments, with ratings and reviews for both cooks and customers.

CrossyDrive & Pick'nDrop

Team Size: 3 | SDK: Unity 3D | Oct 2015 – Jan 2018 | Arrin Solutions

Two casual mobile games developed in Unity 3D. CrossyDrive is a blocky-world endless car racing game. Pick'nDrop is an isometric 2.5D stealth-delivery game where the player collects parcels scattered across a city and delivers them to hideouts without being caught.

EDUCATION

M.E. in Computer Science | CGPA 8.22 — *Aug 2011 – Jul 2013*
Karpagam University, Coimbatore

B.Tech in Information Technology | CGPA 7.54 — *May 2007 – Apr 2011*
The Kavery Engineering College, Mecheri

XII (Higher Secondary) | 69% — *Apr 2007*
MAM Higher Secondary School, Mettur Dam

X (Matriculation) | 66% — *Apr 2005*
JKK Rangammal MHSS, Kumarapalayam
