OBJECTIVE

Final-year Civil Engineering student (CGPA 8.36) with basic knowledge of AutoCAD, Revit, STAAD Pro and MS Office, and training in total station surveying and quantity surveying. Seeking an entry-level role in civil design, site engineering or quantity surveying to apply my technical skills, learn on live projects and grow with the organization.

EDUCATION

B.E. Civil Engineering – Sengunthar Engineering College *2023 – 2027*

CGPA: 8.36

HSC (PCCM Group) – MDV Higher Secondary School *2023*

Marks: 492 / 600 (82%)

SSLC – MDV Higher Secondary School *2021*

Result: All Pass

PROJECT

Mechanical Properties of Concrete Reinforced with Waste Mask Fibers

- Team project (3 members) studying waste surgical-mask (polypropylene) fibres as reinforcement in concrete, to improve crack resistance and reduce biomedical waste.
- **Phase I completed:** literature review of 19 research papers and material testing as per IS codes – cement (consistency, setting time, fineness, specific gravity), fine aggregate (sieve analysis, FM 3.6, Zone II) and coarse aggregate (flakiness, elongation, crushing, impact, abrasion); specific gravity of mask fibre (0.99).
- Designed M30 concrete mix as per IS 10262:2019 (w/c ratio 0.45, mix ratio 1 : 1.52 : 3).
- Final semester: casting and testing cubes, cylinders and beams with 0.15%, 0.30% and 0.45% mask fibre content for compressive, split tensile and flexural strength, with analysis and report.

INTERNSHIP

Internship – Training in Total Station Survey, Surrya Builders, Salem *25 Oct – 5 Nov 2025*

- Completed 12-day training in total station surveying, gaining practical exposure to field surveying and site measurements.

KEY STRENGTHS

- Good understanding of surveying, estimation and basic structural concepts
- Eco-conscious approach to materials, shown in my concrete research project
- Quick learner, team player and comfortable adapting to new technologies
- Willing to work on-site and take responsibility for assigned tasks

TECHNICAL SKILLS

- **Software:** AutoCAD, Revit, STAAD Pro, MS Office, Python (basic level)
- **Core areas:** Civil Design, Surveying (Total Station), Quantity Surveying, Concrete Mix Design, Material Testing

CERTIFICATIONS

- Quantity Surveying – Aladin Academy (2025)
- Python – Course completed
- One-Day Workshop on Drone Technology – Sona College of Technology
