SUMMARY

I am seeking an opportunity to develop my programming skills by working on practical projects and applying my academic knowledge. I am interested in software development and artificial intelligence and look forward to learning new technologies, gaining industry experience, and growing as a Computer Science professional.

TECHNICAL SKILLS

- **Programming Languages:** Java
- **Web Technologies:** HTML, CSS
- **Tools:** Git, GitHub, Visual Studio Code, Eclipse

PROJECTS

AIPrivacyShield – Privacy-AI Chatbot

· Developed a Flask-based chatbot that detects and masks sensitive user information such as email addresses, phone numbers, Aadhaar numbers, and credit card numbers before sending prompts to AI APIs.
· Implemented regex-based PII detection with configurable masking and risk-level identification.
· Added PDF, DOCX, and TXT file processing with secure handling of files containing sensitive information.
· Developed an SQLite-based chat history and analytics dashboard for tracking protected prompts and files.

EDUCATION

B.E. Computer Science & Engineering 2023 – 2027

Mahendra Institute of Technology, Namakkal

- CGPA: 8.4*/ 10

Higher Secondary (12th) 2022 – 2023

Krishnaveni Government Girls Higher Secondary School

- Percentage: 68.5%

ACHIEVEMENT

- **Typewriting English – Junior:** First Class with Distinction

CERTIFICATIONS

- **ChatGPT for Everyone: Complete Generative AI & Prompt Engineering Course** – GUVI (HCL), July 2026
- **Build & Deploy AI Apps with Google AI Studio: Multimodal AI Speech App Development** – GUVI (HCL), June 2026
- **Web Development Frameworks – Workshop** – Mahendra Institute of Technology
- **AI for Beginners: Building Your First Chatbot – Workshop** – Mahendra Institute of Technology

LANGUAGES

- **Tamil**
- **English**
