StateBoard

Percentage: 60%

Skills & abilities

Programming Language

- Python

Web Technologies

- Html
- Css
- Java Script
- Power Bi
- Problem Solving
- Microsoft Office

Project

Online Banking System

- The Online Banking System allows users to manage their bank accounts through a simple web application. Users can log in to the dashboard to view their account details and current balance. They can deposit money, withdraw funds, and view their transaction history, with all transactions updated instantly using JavaScript. The system is built using HTML for the structure, CSS for the design, and JavaScript for the interactive features, providing a simple and user-friendly banking experience.

Student Management System

- Developed a system to manage student information such as registration details, marks, attendance, and records.
- Implemented CRUD operations to add, update, delete, and search student data.
- **Technologies Used:** Python, MySQL, HTML, CSS.

Language

- English
- Kannada
- Tamil

Certifications

- NPTEL Certification - “Introduction Internet of Things”
