PROFESSIONAL SUMMARY

Cyber Security Engineering student with hands-on exposure to SIEM tools, log monitoring, endpoint security, and the MITRE ATT&CK framework. Skilled in networking fundamentals, Burp Suite, and Cisco Packet Tracer. Passionate about SOC operations, threat detection, and incident response, with practical project experience in secure application development.

TECHNICAL SKILLS

-> Security Operations:
Wazuh, Splunk, Elastic Stack, SIEM Fundamentals, SOC Operations, Security Monitoring, Log Analysis, Alert Triage, Incident Detection, Incident Response, Threat Detection, Windows Event Log Analysis, Linux Log Analysis, IOC Analysis, SOAR

-> SIEM / Security Monitoring
SIEM Detection Rules, Brute-Force Detection, Port Scanning Detection, Suspicious DNS Detection, Firewall Connection Monitoring, VPN Brute-Force Detection, Phishing Detection, IOC Analysis, Alert Investigation, Log Correlation

-> Endpoint / Security Management
Sophos, ManageEngine, EDR Fundamentals, Endpoint Monitoring, File Integrity Monitoring (FIM), Security Configuration Assessment (SCA)

-> Networking & OS
TCP/IP, OSI Model, IP Addressing, DNS, DHCP, TCP vs UDP, HTTP/HTTPS, Common Ports, Wireshark | Network Traffic Analysis | Packet Analysis | Windows & Linux | Firewall Monitoring | VPN Monitoring

-> Security Tools & Concepts
Nmap, Burp Suite, Cisco Packet Tracer, MITRE ATT&CK, CIS Controls, CIS Security Benchmarks, Vulnerability Management, CVE Analysis, Port Scanning, Web Application Security, Cybersecurity CTF

-> Cloud / AWS Security
AWS CloudTrail, AWS IAM Fundamentals, AWS Security Groups, AWS VPC Flow Logs, AWS-based Wazuh Deployment

PROJECTS

Secure Chat Application
- Developed a secure communication platform using React, TypeScript, and Supabase with AES-256 encryption.
- Implemented user authentication and ephemeral messaging for enhanced data privacy.

Blocked IP Detection
- Designed a system to identify and monitor blocked or suspicious IP addresses.
- Improved understanding of network monitoring and threat detection.

SOC Alert Triage & Incident Response Automation Platform
- Developed a SOC platform to collect and monitor real-time Windows Security Logs.
- Implemented threat detection, risk scoring, alert triage, IOC analysis, and MITRE ATT&CK mapping.
- Built an incident response dashboard with alert correlation, investigation, and simulated response workflows.

PRACTICAL EXPOSURE

- Configured and monitored security alerts using **Wazuh SIEM** in an integrated lab environment, performing log analysis, event investigation, basic threat detection, and **threshold-based alert configuration and tuning** across Windows and Linux endpoints.
- Built and integrated a network security lab consisting of **Windows, Linux, DNS, DHCP, Web Server, Proxy, Firewall, and VPN services**, gaining hands-on experience in network communication, access control, traffic monitoring, and security infrastructure integration.
- Configured and reviewed **firewall rules, VPN access controls, proxy traffic, DNS/DHCP services, and network security events**, developing practical understanding of secure connectivity, traffic filtering, and access management.
- Performed basic vulnerability testing and **HTTP request/response analysis using Burp Suite** to identify potential web application security issues and understand common attack behaviors.
- Simulated attacker techniques and mapped detection scenarios to the **MITRE ATT&CK Framework**, analyzing attack behaviors and relating them to relevant detection and monitoring techniques.
- Managed endpoint security policies and threat monitoring using **Sophos**, including endpoint protection, security alert analysis, and basic investigation of detected security events.
- Applied patch management procedures using **ManageEngine** to maintain endpoint security, deploy security updates, address vulnerabilities, and support system security compliance.

CERTIFICATIONS

NPTEL Java Certification

EDUCATION

Sri Shanmugha College of Engineering and Technology, *Bachelor of Engineering in Cyber Security Engineering* 2027
