shubikshaavj@gmail.com LinkedIn : Shubikshaa V J Ph no.: 8248292441

Summary

Results-driven Information Technology student with hands-on experience in software development, web technologies, and DevOps practices through academic projects and industry internships. Proficient in Java, Python, HTML, CSS, and Linux, with practical exposure to Docker, Kubernetes, Jenkins, and infrastructure troubleshooting. Demonstrated ability to build scalable applications, automate workflows, and solve technical problems in real-world environments. Seeking opportunities to contribute technical expertise while growing in Software Engineering, Web Development, and DevOps roles.

Education

Bachelor of Technology in Information Technology

Knowledge Institute of Technology, Salem | Anna University | Graduation: 2026 | CGPA : 8.4

12th (HSC) | Year of Passing : 2022 | Percentage : 76%
Sri Swamy Matric Higher Secondary School, Salem
10th (SSLC) | Year of Passing : 2020 | Percentage : 99.2%
Sri Swamy Matric Higher Secondary School, Salem

Skills

Technical Skills : Java, Python, HTML, CSS
DevOps / Infrastructure : Docker, Kubernetes, Linux, Jenkins Pipeline, Groovy, Automation Scripting
Tools : MySQL, Git, Jira, Canva, Microsoft Excel
Soft Skills : Problem-solving, Critical Thinking, Team Collaboration, Cross-functional Coordination
Communication Skills : Technical Documentation, Presentation Skills

Internships

Visteon, Chennai | DevOps Engineer Intern Nov 2025 – Apr 2026

- Gained hands-on experience in DevOps workflows and infrastructure automation.
- Developed automation scripts and supported workflow efficiency using Jira.
- Created and maintained Dockerfiles for containerized applications.
- Troubleshot node offline issues and performed NFS maintenance; configured Rovo Agents for productivity support.

Neura AI, Tiruchengode | AIML Intern Jul 2024 – Sep 2024

- Developed predictive models using machine learning algorithms for real-world datasets, improving data-driven decision-making.
- Applied supervised learning techniques for classification and regression tasks with Python and Scikit-learn.

WSPL Hosting, Tiruchengode | Web Developer Intern Nov 2023 – May 2024

- Developed frontend architecture to improve scalability and performance of websites.
- Built an Event Management web application with teammates; integrated dynamic elements using JavaScript.

Academic Projects

Intelligent Career Readiness and Placement Management System

- Developed a smart placement management platform using HTML, CSS, JavaScript, MySQL, and role-based access control for student career guidance.

Live Weather Application

- Built a responsive weather forecast app using HTML, CSS, JS, and OpenWeather API displaying real-time temperature, humidity, and weather conditions.

Eco-Friendly Route Planner

- Developed a web app using HTML, CSS, JS, and Google Maps API to display routes with fuel consumption and carbon emission stats, enabling users to compare eco-friendly routes.

Certifications

- Complete Java Programming
- Docker & Kubernetes – Container Orchestration
- Introduction to Artificial Intelligence and Machine Learning

Co-curricular

- Organized Fresher's Day and large-scale college events; managed planning, logistics, and cross-functional team coordination for smooth execution.
- Active volunteer and organizer in college technical and cultural events.
