PROFILE SUMMARY

Data Analyst Fresher with hands-on knowledge of SQL, Python, Microsoft Excel, Power BI, Tableau, data cleaning, data visualization, and business analytics. Strong problem-solving and analytical skills with the ability to interpret data and create interactive dashboards. Looking for an opportunity to contribute to data-driven decision-making in a growth-oriented organization.

PROJECT

AI and Green Scale Project:

Developed an AI-based sustainability project focused on renewable energy optimization, carbon emission reduction, waste management, climate prediction, and eco-friendly infrastructure using data-driven insights.

Movie Recommendation System:

Built a movie recommendation system using Python by analyzing movie datasets and user reviews. Applied sentiment analysis to enhance recommendation accuracy.
