Executive Summary

Motivated **Network Engineer** with a strong foundation in networking concepts, routing & switching, and troubleshooting. Hands-on experience in basic network configuration, monitoring, and maintaining reliable LAN/WAN connectivity. Eager to grow in enterprise networking, network security, and cloud networking technologies.

Skills

- **Networking Fundamentals:** TCP/IP, OSI Model, Subnetting, DNS, DHCP, NAT
- **Routing & Switching:** VLAN, Trunking, STP, Static Routing, OSPF (Basic)
- **Network Troubleshooting:** Ping, Traceroute, Nslookup, Wireshark (Packet Analysis)
- **Network Security (Basic):** ACL, Firewall Basics, VPN Basics
- **Tools & Platforms:** Cisco Packet Tracek
- **Operating Systems:** Windows, Linux (Basic Networking Commands)

Experience

Network Engineer Intern *On-site*
Network System *July 2025 – August 2025*

- Assisted in configuring and maintaining **LAN/WAN** connectivity to ensure stable network operations.
- Supported **routing and switching** tasks including VLAN setup, basic routing, and port configuration on network devices.
- Monitored network performance and helped troubleshoot connectivity issues using tools like **Ping, Traceroute, and Wireshark**.
- Worked on **IP addressing and subnetting** to allocate and manage network segments efficiently.
- Supported basic **network security** tasks such as applying ACL rules and assisting in firewall configuration.
- Documented network changes, device configurations, and troubleshooting steps for internal reference.

Projects

Enterprise Network Design & Implementation (Cisco Packet Tracer)

- Designed a multi-department enterprise network with **VLAN segmentation** to separate HR, Finance, and IT traffic.
- Configured **inter-VLAN routing** and implemented **DHCP** for dynamic IP assignment.
- Applied **ACL rules** to restrict unauthorized access between VLANs and improve security.
- Investigated common protocols such as **TCP, UDP, DNS, DHCP, and HTTP** for real-time troubleshooting.
- Verified connectivity and troubleshooting using **Ping, Traceroute**, and simulation-based testing.

Achievements & Certifications

- **Diploma in Network Administration** – Network System (2025).
- Completed hands-on training in **Routing & Switching**, **Subnetting**, and **LAN/WAN configuration**.
- Practical exposure to configuring **VLANs**, **Inter-VLAN Routing**, and basic **Network Security**.
- Performed real-time network troubleshooting using **Wireshark**, **Ping**, and **Traceroute**.

Education

B.E in Computer Science *2022 – 2026*
Ponjesly College of Engineering – Anna University **CGPA: 8.1**
