CAREER OBJECTIVE

Motivated and detail-oriented Computer Science graduate with hands-on full-stack development experience and working knowledge of cloud computing on AWS. Seeking a software engineer role to leverage my programming, cloud, and problem-solving skills in developing innovative solutions and contributing to organizational success.

EDUCATION

B.E - Computer Science and Design, Kongu Engineering College 2022 - 2026 | CGPA 8.10
HSC - Class XII, Tamil Nadu State Board 2019 - 2021 | 87.45%
SSLC - Class X, Tamil Nadu State Board 2018 - 2019 | 80.02%

TECHNICAL SKILLS

- Languages: Java, C, JavaScript, HTML, CSS
- Frameworks/Libraries: React.js, Express.js, Node.js, Spring Boot
- Database: MySQL, MongoDB
- Cloud Computing: AWS (EC2, S3, IAM)
- Tools: Git, GitHub, VS Code, Figma
- Software Engineering: SDLC, Agile fundamentals

AREA OF INTEREST

- Cloud Computing (AWS)
- Fullstack Development
- Object-Oriented Programming with Java
- Database Management

PROJECTS

Easy Furniture Shopping Hub | *React, Node.js, MongoDB, Express, Redux* January 2026

- Built a full-stack e-commerce platform for furniture shopping with real-time product listings and availability updates.
- Implemented secure user authentication and authorization using JWT, including role-based access for admin and customers.
- Developed admin dashboards for inventory, order, and user management, improving operational efficiency.
- Integrated PayPal payment gateway and optimized app performance using Redux state management and responsive design.

MessageWave | *Java, Spring Boot, WebSockets, HTML, CSS, JS* october 2024

- Built a real-time chat application to facilitate instant messaging between users.
- Developed the backend using Java and Spring Boot, ensuring robust and scalable server-side logic.
- Implemented WebSockets to enable real-time, bidirectional communication between clients and the server.
- Designed the frontend using HTML and CSS, creating a user-friendly interface for seamless interaction.

Expense Tracker | *HTML, CSS, JavaScript* November 2025

- Developed a client-side Expense Tracker application to record, edit, and delete daily expenses with category-wise classification.
- Implemented dynamic UI updates using JavaScript DOM manipulation for real-time expense calculation and balance tracking.
- Used browser LocalStorage to persist expense data across sessions without backend dependency.
- Designed a clean, responsive user interface using HTML and CSS, improving usability across desktop and mobile devices.

CERTIFICATION

Wipro TalentNext - Java Full Stack Jul - Oct 2025
MongoDB Certified Associate Developer Feb 2025

LEADERSHIP / EXTRACURRICULAR

Computer Society of India - Executive Member, KEC July 2023 - 2024

- Organized and coordinated technical events, coding contests, and workshops.
- Promoted peer learning and participation in national-level competitions.
