PROFESSIONAL SUMMARY

A motivated Electronics and Communication Engineering student with a strong interest in Embedded Systems, VLSI, PCB Design, and Electronics Design. Possess foundational knowledge in circuit design, programming, PCB development, simulation, and testing. Eager to apply technical skills and gain practical experience through innovative projects and industry exposure.

EDUCATION

Sri Shanmugha College of Engineering and Technology
Bachelor of Engineering (B.E.) in Electronics and Communication Engineering
2023–2027
CGPA: 7.80/10

Einstein Matric Higher Secondary School
HSC (2022–2023) – 60%

Government Boys High School
SSLC (2020–2021) – All Pass

CERTIFICATIONS

- PCB Design Certificate
- Altium Designer Certificate
- Digital Design and Verification
- Implant Training – BSNL Office

TRAINING

- 5-Day Implant Training at BSNL Office
- LFT Training Program
- Embedded C Training – Infineon Technologies

ACHIEVEMENTS

- Successfully completed 20+ Analog Electronics projects within 2 weeks.
- Successfully completed 20+ Embedded Systems projects within 2 weeks.

PROJECTS

Smart Water Quality Monitoring System using IoT with Early Warning System

- Developed an IoT-based system to monitor water quality using a turbidity sensor.
- Interfaced the sensor with a microcontroller and displayed water quality information on an LCD.

- Implemented an early warning system using LEDs and a buzzer for detecting poor water quality.
- Integrated Wi-Fi-based monitoring and notification features for remote alerts.
- **Tools/Technologies:** Arduino IDE, ESP8266, IoT, Turbidity Sensor, LCD, Telegram Bot.

TECHNICAL SKILLS

- C Programming (Basics)
- VLSI Design (Basics)
- PCB Design using multisim
- Soldering and Electronic Circuit Testing
- Basic Circuit Design and Troubleshooting

SOFT SKILLS

- Time Management
- Teamwork
- Quick Learning

PROFESSIONAL MEMBERSHIP
