DEEPANA M

+91 8870754453 | deepanam79@gmail.com | LinkedIn | GitHub | LeetCode | HackerRank

PROFESSIONAL SUMMARY

Final-year B.E. Computer Science and Engineering student with hands-on experience in Python, SQL, React.js, Machine Learning, and Generative AI. Experienced in developing software, web, and AI-based applications through academic projects and internships. Completed internships in Python Development and Generative AI, with practical exposure to backend development, LLMs, and prompt engineering. problem-solving and communication skills with an interest in software development and AI technologies.

EDUCATION

KSR College of Engineering, Namakkal, Tamil Nadu **2023 – 2027**
B.E. Computer Science and Engineering *CGPA: 8.10*

Government Girls Higher Secondary School, Salem, Tamil Nadu **2022 – 2023**
Higher Secondary Certificate (HSC)

Government Girls Higher Secondary School, Salem, Tamil Nadu **2020 – 2021**
Secondary School Leaving Certificate (SSLC)

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **AI/ML:** Machine Learning, NLP, Scikit-learn, Generative AI
- **Database:** SQL
- **Tools:** Git, GitHub, VS Code
- **Soft Skills:** Problem Solving, Communication, Teamwork, Adaptability

PROJECTS

E-Commerce Review Analyzer
Tech Stack: Python, NLP, Machine Learning, Scikit-learn, React.js
Extracted product aspects, performed sentiment analysis, and generated actionable customer insights from online reviews.

Fake News Detection System
Tech Stack: Python, NLP, Scikit-learn, TF-IDF
Developed a classification model to identify misleading news content using text preprocessing and TF-IDF feature extraction.

Real-Time Chat Application
Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO
Implemented instant messaging with user authentication and persistent data storage for seamless real-time communication.

Cosmic Hand Magic
Tech Stack: Python, OpenCV, MediaPipe, Computer Vision
Created gesture-based visual effects using real-time hand tracking and computer vision techniques for interactive experiences.

INTERNSHIP

Python Developer Intern *June 2024 – July 2024*
Make Vision Software, Bengaluru
- Developed reusable Python modules for backend applications, streamlining code structure and reducing redundancy.
- Optimized SQL queries and troubleshot application issues to enhance system performance and reliability.

Generative AI Developer Intern *May 2025 – June 2025*
OneYes Tech Info Solutions, Chennai
- Developed AI-powered applications using Generative AI and Large Language Models (LLMs) for practical use cases.
- Applied prompt engineering, document summarization, and AI automation techniques to improve application workflows.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- MERN Stack Development Certification
- Python Programming Certification
- Generative AI Certification

ACHIEVEMENTS

- Successfully completed the TCS iON NQT Cognitive Assessment, demonstrating proficiency in numerical ability, verbal ability, logical reasoning while strengthening analytical and problem-solving skills for software development roles and technical growth.
