CAREER OBJECTIVE

B.Tech Information Technology student with hands-on skills in SQL, database management, Python, and Power BI, seeking an entry-level opportunity as a Data Analyst / Graduate Engineer Trainee. Eager to apply strong analytical thinking, structured problem-solving, and teamwork to deliver data-driven solutions, while growing within a technology-driven organization.

EDUCATION

- **B.Tech, Information Technology** — Velalar College of Engineering and Technology, Erode | 2023–2027 | CGPA: 8.44
- **Higher Secondary Certificate (HSC)** — Kongu Matric Hr. Sec. School | 2023 | 78.16%
- **Secondary School Leaving Certificate (SSLC)** — Kongu Matric Hr. Sec. School | 2021 | 100%

TECHNICAL SKILLS

- **Data & Databases:** SQL, Relational Database Management (DBMS concepts)
- **Programming Languages:** Python (Pandas, NumPy), Java
- **Data Visualization & Analytics:** Power BI, MS Excel (formulas, pivot tables, data cleaning)
- **Productivity Tools:** MS Excel, MS Word, MS PowerPoint
- **Web & Version Control:** HTML, CSS, JavaScript, GitHub, VS Code
- **Soft Skills:** Teamwork, Communication, Leadership, Time Management, Adaptability

PROJECT

Multilingual Deepfake Audio Detection Using CNN and Gradient Boosting

- Analyzed and modeled audio datasets across three languages (Tamil, English, Arabic) to detect manipulated/synthetic speech, applying statistical feature-engineering techniques to raw audio signals.
- Extracted MFCC-based statistical audio features to improve model accuracy and support data-driven classification decisions.
- Built and evaluated a two-stage analytical pipeline (CNN for feature extraction, Gradient Boosting for classification), translating model outputs into interpretable, actionable results.
- Documented methodology and findings in a formal research paper, demonstrating the ability to present technical analysis clearly to a review audience — a skill directly relevant to client-facing reporting roles.

RESEARCH PUBLICATION

- "Deepfake Audio Detection Using CNN and Gradient Boosting" — Published at an IEEE International Conference, P.E.S. College of Engineering.

CERTIFICATIONS

- Data Science 101 — IBM SkillsBuild (Coursera)
- Basics of Java — Infosys Springboard
- MERN Full Stack Development — Yellowmatics

LEADERSHIP & CO-CURRICULAR ACTIVITIES

- **Elevator Club** — Executive Member (2025–2027); collaborated cross-functionally to plan and coordinate club initiatives.
- Workshop: "DBMS with SQL" — Velalar College of Engineering and Technology.
- Workshop: "Augmented Reality Applications & Game Engine" — Kongu Engineering College.

STRENGTHS

Problem Solving • Analytical Thinking • Team Collaboration • Self-Motivated • Meets Deadlines in Fast-Paced Environments
