ABINAYA C

abinayachinnusamy3075@gmail.com | +91 6380901659

PROFESSIONAL SUMMARY

Motivated and detail-oriented Electronics and Communication Engineering graduate with strong knowledge in analog and digital electronics, communication systems, VLSI, and embedded systems. Skilled in circuit design, PCB design, and simulation tools. Seeking an entry-level core ECE position to apply technical skills and contribute to innovative engineering projects.

INTERNSHIP

IOT INTERN (Samcore Solutions ,Trichy, India.)

- Worked on interfacing various sensors and actuators using Arduino and ESP32 microcontrollers.
- Collected and analyzed real-time sensor data for environmental monitoring applications.
- Developed small prototype models for smart home and automation systems.
- Enhanced understanding of cloud-based datavisualization and IoT architecture layers.

VLSI INTERN (Nxtgen Instruments, Erode)

- Acquired practical knowledge in Verilog HDL programming for digital circuit design.
- Worked with FPGA tools and simulation platforms to implement and test logic designs.
- Understood synthesis, simulation, and timing analysis in chip-level design flow.
- Designed simple digital modules such as adders,multiplexers, and counters using HDL.
- Learned about VLSI design methodologies and how embedded systems integrate with hardware logic.

PROJECTS

AUTOMATIC GATE OPENING SYSTEM | EMBEDDED IOT PROJECT

oct 2025 – Present

- Automatic Gate Opening System
- Designed an embedded system for automated gate control using IR sensors and microcontrollers.
- Programmed in Embedded C to ensure real-time response and reliability.
- Integrated motor drivers for safe and efficient gate operation, demonstrating IoT and automation concepts.

EDUCATION

KSR INSTITUTE FOR ENGINEERING AND TECHNOLOGY

BACHELOR OF ENGINEERING IN ELECTRONICS AND COMMUNICATION ENGINEERING

2023 - 2027 Cum. GPA: 7.8

SKILLS

CORE SKILLS

- Embedded systems
- Internet of things(IoT)
- VerilogHDL

TOOLS AND PLATFORMS

Arduino , ESP32 , Sensors , Proteus Stimulation , Circuit design.

ACHIEVEMENTS AND CERTIFICATIONS

- Completed certified internships in IoT and VLSI domains.
- Participated in technical paper presentation on 4G/5G.
- Completed NPTEL certification in Internet of Things(IOT)

SOFT SKILLS

- Communication
- Teamwork
- Adaptability
- Time Management
