# DHARANI S

**dharaniselvarathinam@gmail.com |916382690260|**

## Professional Summary

Electronics and Communication Engineering student with knowledge in Embedded Systems and VLSI design. Skilled in Verilog, Embedded C, and digital electronics with hands-on experience through academic projects and internships. Interested in learning new technologies and improving technical skills while contributing to innovative projects and real-world applications.

## Internship

NxtGen Instruments Company(VLSI)

- Gained hands-on experience in VLSI design workflows including RTL coding, simulation, and verification.
- Worked with industry-standard EDA tools for synthesis, timing analysis, and optimization.
- Strengthened practical knowledge of Verilog and digital electronics in real-world applications.

## Project

Automatic Gate Opening System

- Designed an embedded system for automated gate control using IR sensors and micro controllers.
- Programmed in Embedded C to ensure real-time response and reliability.
- Integrated motor drivers for safe and efficient gate operation, demonstrating IoT and automation concepts.

## Education

KSR Institute for Engineering and Technology
B.E. Electronics and Communication Engineering (ECE) CGPA: 7.63

## Technical Skills

- Core Skills:
- Digital Electronics (DE) Verilog
- Embedded C

**Tools:**

- ESP 32
- Sensors
- Arduino UNO

**Platforms:**

- EDA
- Play ground

## Soft Skills

- Time Management
- Communication
- Team Work
- Leadership

## Certifications

- Paper Presentation on 4G5G: Presented innovative ideas on next-generation communication technologies, focusing on speed and efficiency improvements.

- NPTEL Certification in IoT: Completed course-work covering IoT architecture, protocols, and applications, strengthening embedded system knowledge.
