ROSHNI M

SOC Analyst | Cybersecurity

+91 9443078673 | rroshniff@gmail.com | Salem, Tamil Nadu | linkedin.com/in/roshni-m-533514294

CAREER OBJECTIVE

Cybersecurity student pursuing B.E. in Computer Science and Engineering (Cyber Security), seeking to begin a career as a SOC Analyst. Solid grounding in networking fundamentals, cybersecurity concepts, and reconnaissance techniques, with hands-on project experience in DNS/WHOIS analysis and vulnerability assessment. Comfortable working across Windows and Linux environments and eager to build expertise in cloud security, SIEM tools, and incident monitoring.

TECHNICAL SKILLS

- **SOC & Defensive Security:** SOC Basics, Security Monitoring, Alert Triage, Incident Handling, Root Cause Analysis
- **SIEM & Endpoint Security:** Wazuh, Log Analysis, Security Alert Investigation, File Integrity Monitoring, Security Configuration Assessment
- **Network & Infrastructure:** TCP/IP, DNS, Network Fundamentals
- **Cloud Security:** AWS, EC2, IAM, S3, Security Groups, CloudWatch, SNS
- **Security Assessment & Recon:** Vulnerability Assessment, Security Testing, Information Gathering, WHOIS, Subdomain Enumeration, OSINT Framework
- **Security Tools:** Nmap, Burp Suite, OpenVPN, OSINT Framework
- **Security Knowledge:** Threat Awareness, Social Engineering Concepts, MITRE ATT&CK, Cybersecurity Fundamentals

HANDS-ON SKILLS & EXPERIENCE

Wazuh SIEM & Log Monitoring

- Configured Wazuh SIEM for centralized log monitoring; integrated Windows, Linux, Firewall, DNS, Web Server, and VPN logs into Wazuh.
- Performed log ingestion and validated alerts using Wazuh Logtest and the Wazuh Dashboard.
- Created custom detection rules for security event detection and failed login attempts.
- Practiced alert investigation, Windows/Linux agent monitoring, File Integrity Monitoring (FIM), and Security Configuration Assessment (SCA).

Cloud Security (AWS)

- Practiced EC2 deployment, IAM, VPC, Security Groups, CloudWatch monitoring, and SNS alerts.

Network Security

- Used Cisco Packet Tracer to practice IP addressing, subnetting, routing, and basic network troubleshooting.

Security Testing

- Used Nmap for network scanning and service discovery, and Burp Suite for basic web application security testing.

VPN & Reconnaissance

- Configured OpenVPN for secure connectivity and authentication; used OSINT Framework for information gathering and reconnaissance.

PROJECTS — WEBSITE RECONNAISSANCE TOOL

- Developed an automated reconnaissance tool for information gathering on target domains.
- Performed DNS lookup, WHOIS analysis, and subdomain enumeration to map the attack surface.
- Generated security assessment reports summarizing reconnaissance findings.
- Practiced initial reconnaissance techniques and explored their relevance to threat investigation.

CERTIFICATIONS & COURSES

- NPTEL Certification – Java Programming, 2025
- NPTEL Certification – Software Project Management, 2025
- Fortinet NSE 1 – Network Security Associate
- Social Engineering – Capriciosec University (Completed Course)

STRENGTHS

Team Collaboration • Communication • Hard Working • Adaptability

LANGUAGES

English • Tamil • Hindi

EDUCATION

- **B.E. Computer Science and Engineering (Cyber Security)** | CGPA: 7.5 — Sri Shanmugha College of Engineering and Technology, Sankari — 2027
- **HSC** | Percentage: 78% — Government Girls Higher Secondary School, Salem — 2023
