PROJECTS

AI Virtual Mouse
- Built a computer-vision system that detects hand gestures via webcam to control the mouse pointer without physical hardware.
- Enabled real-time cursor movement and click actions by tracking hand landmarks through live video input.

Supermarket Management System (Java)
- Developed a Java application to manage products, billing, and customer records for daily supermarket operations.
- Simplified inventory control and checkout, reducing manual effort in day-to-day store management.

Smart Key Chain
- Designed an IoT-based device that helps users locate misplaced keys using wireless tracking technology.
- Implemented signal-based proximity detection to alert users when keys are out of range.

WORK EXPERIENCE

Data Analytics Intern — Emglitz IDM Tech Park, Erode 14 Days
Gained hands-on exposure to data analytics workflows and tools.

AI & ML Intern — Techforge, Salem 14 Days
Worked on foundational AI & ML concepts and applied projects.

CERTIFICATIONS & ACHIEVEMENTS

- Python for Everybody — Infosys Springboard
- Presented at Blockathon, CIT, Coimbatore
- Solved 130+ problems on LeetCode
