Career Objective

Highly motivated Electronics and Communication Engineering student with a strong foundation in digital electronics and circuit design. Seeking a challenging Hardware Engineering position in a dynamic organization to apply my skills in hardware schematic design, embedded systems, and automotive electronics to contribute to innovative mobility and IoT solutions.

Education

Bachelor of Electronics and Communication Engineering — **9.63**
K. S. Rangasamy College of Technology (up to 6 – Semester) — 2023 – 2027

HSC (12th) — **84.3%**
Government Girls Higher Secondary School, Bhavani — 2023

SSLC (10th) — **100%**
Government Girls Higher Secondary School, Bhavani — 2021

Technical Skills

- **Core Competencies:** Digital Electronics | VLSI Design and Testing | Integrated Circuits
- **Programming & Hardware Languages:** C | Verilog HDL
- **Development & Simulation Tools:** Xilinx ISE | Vivado | MATLAB | Multisim | Ng spice | Micro wind

Area of Interest

- Digital Electronics
- VLSI Design and Testing
- Integrated Circuits

Projects

1. **Network-on-Chip (NoC) Router**
   - Designed and simulated a mini NoC router utilizing Verilog HDL.
   - Optimized the architecture for efficient on-chip data communication and packet routing.
2. **AI Based Smart EV Battery Fire Detection**
   - Developed an intelligent EV battery safety system using multi-sensor data for early fire-risk detection.
   - Implemented Random Forest machine learning to classify battery conditions and provide early warning alerts.

Completed Mini Projects

1.Mini Audio Amplifier

Designed and built a small audio amplifier circuit using an LM386 IC to amplify low-level audio signals. Gained hands-on experience in audio electronics and basic analog circuit design.

2.PWM Controller

Developed a PWM (Pulse Width Modulation) controller to vary the speed of a DC motor. Implemented using microcontroller-based logic for efficient duty cycle control.

3.8V Power Supply

Constructed a regulated 8V DC power supply using transformer, rectifier, filter, and voltage regulator components. Provided steady voltage for powering low-voltage electronic circuits.

Internship & Experience

Enthu Technology Solution Pvt. Ltd. Intern – Embedded Systems & IoT
Duration: 2 Weeks

- Learned basics of Embedded Systems and IoT.
- Worked with microcontrollers like Arduino and NodeMCU.
- Interfaced sensors such as DHT11, IR, and ultrasonic.
- Wrote code in Embedded C for sensor data.

Technical Achievements & Publications

- **Smart India Hackathon (SIH):** Advanced to the Final Level with the "AI Based Smart Safety Flow" project.
- **MSME 4.0 Idea Hackathon:** Advanced to the Final Level with the "Measurement of Intraocular Pressure in Glaucoma Patients" prototype.
- **Paper Presentation (March 2026):** "Hospital Patient Queue Display System Using Finite State Machine (FSM)" at Bannari Amman Institute of Technology.
- **Paper Presentation (Nov 2024):** "Smart Agriculture System using LoRa LPWAN" at Sri Ramakrishna Engineering College.

- **Mathematics Competition:** Reached Level 3 in the Srinivasa Ramanujan Mathematical Competition (Oct – Nov 2024).

Certifications

- Completed courses on Google (Introduction to Generative AI)
- Coursera (AI for Everyone, IoT Networking)
- Infosys (Data Structures and Algorithm in Java, Basics of Python)
- MATLAB (Onramp, Simulink)
- Completed a NPTEL course on Introduction to Cloud Computing by IIT Kharagpur with 67% (Jul – Oct 2024), Introduction to Internet of Things by IIT Kharagpur with 73% (Jan – Apr 2025) and Human Computer Interaction by IIT Kharagpur with 90% (Jan – Apr 2026)
- Digital Engineering Courses in NASSCOM (March 2026)

Achievement

- Received the Academic Topper Award for securing the highest academic performance in the ECE during the academic year 2024 – 2025.

Personal Information

- **Parent's Name** : G. Manikandan & M. Kalaivani
- **Date of Birth** : 15/09/2005
- **Address** : 218 A, Thiruneelakandar Street, Bhavani, Erode (Dt) - 638 301
- **Nationality** : Indian
- **Languages Known** : English, Tamil
- **Hobbies** : Drawing, Learning new things

Declaration

I hereby declare that above specified details is true to the best of my knowledge.
