Career Objective

B.Tech graduate in AI and Data Science seeking an entry-level role to apply technical skills and contribute to real-world projects.

Education

Kongu Engineering College, Perundurai, Erode 2022 - 2026
B.Tech in Artificial Intelligence and Data Science | CGPA: 7.85

URC Palaniammal Matric Hr Sec School, Thindal, Erode
HSC (May 2022) : 89.84%
SSLC (Mar 2020) : 80.80%

Projects

Chatbot - Plant Disease Prediction: `github.com/MohammedAadhil-007/plant_disease_prediction`
Tech Stack: Deep Learning, React, Tailwind CSS, FastAPI

- Developed an image classification system using AlexNet to identify plant diseases from leaf images.
- Integrated Qwen LLM to provide conversational diagnosis and plant-care suggestions.
- Built REST APIs using FastAPI and developed a responsive frontend using ReactJS and Tailwind CSS.

Food Delivery - A Web App: `github.com/MohammedAadhil-007/food-del`
Tech Stack: ReactJS, Node, MongoDB

- Developed a food ordering web application with restaurant listings and order workflows.
- Built dynamic user interfaces using ReactJS and CSS.
- Developed backend APIs using Node.js and Express.js with MongoDB for data storage.

Stock Price Prediction: `github.com/MohammedAadhil-007/stock_price_prediction`
Tech Stack: Machine Learning, Streamlit, scikit-learn, yfinance

- Designed a Streamlit app to forecast stock prices using ML models.
- Implemented technical indicators like RSI, MACD, and Bollinger Bands.
- Fetched and processed stock data using yfinance for short-term prediction tasks.

Technical Skills

Languages: Java, Python, JavaScript, C

Web & Backend: ReactJS, Node.js, Express.js, FastAPI, REST APIs, Tailwind CSS

Databases: MySQL, MongoDB

AI/ML: Machine Learning, Deep Learning, TensorFlow/Keras, scikit-learn, Hugging Face, LLMs

Tools: Git, GitHub, Postman, Power BI

Achievements

- **2nd in Production Virtuoso, PSG Tech, 2024:** Designed and presented a Smart Trash Can prototype focused on improving waste disposal efficiency and hygiene.
- **2nd Place in Vivere at KEC, 2024:** Secured 2nd place for presenting and prototyping an AI-powered personalized assistant chatbot integrated with an e-commerce platform.

Certifications

MongoDB Associate Developer – MongoDB University `credly.com/go/nWUk3k6L`

Publications

Cervical Cancer Prediction using Machine Learning `ieeexplore.ieee.org/document/10725056`
