PROFESSIONAL SUMMARY

Aspiring Software Developer and final-year B.Tech IT student, skilled in Java, Python, and machine learning, with hands-on exposure to backend development (Node.js, FastAPI, REST APIs) and Generative AI tools (OpenAI API, LangChain). Built an AI-driven mental wellness assessment tool and a supermarket management system, and gained backend and ML experience through two technical internships. Eager to bring strong problem-solving and full-cycle development skills to an entry-level engineering role.

EDUCATION

Nandha Engineering College, Erode
B.Tech - Information Technology | Expected Graduation: 2027 | CGPA: 8.2

TECHNICAL SKILLS

Programming Languages: Java, Python
Web & Backend: HTML, CSS, JavaScript, React, Node.js, Express.js, REST API, FastAPI
Databases: SQL, MySQL, MongoDB
AI/ML: Machine Learning, LangChain, OpenAI API/ChatGPT, Prompt Engineering
Tools & Platforms: VS Code, Git/GitHub, Jupyter/Colab, Power BI (Basics), Figma, Canva, MS Office

PROJECTS

RecoverPay AI — GenAI-Powered Payment Recovery & Risk Analysis
- Built a GenAI-powered fintech application for payment-recovery risk analysis and intelligent decision support.
- Developed Revenue Risk, Recovery Agent, Batch Lab, Audit Trail, and Copilot modules for analyzing transactions and recovery actions.

MindScope — AI-Based Mental Health Analysis System
- Built an AI-based system to analyze and support mental health assessment.
- Used OpenAI API and Jupyter notebooks to prototype and test AI model responses during development.

SmartMarket — Supermarket Management System
- Developed a management system to handle supermarket operations.
- Implemented backend logic and database operations using SQL/MySQL.
- Built with React on the frontend and Node.js/Express.js on the backend, with MongoDB for data storage.

AI-Powered Sports Talent Assessment — Smart India Hackathon (SIH)
- Built an AI-based solution for sports talent evaluation as part of the Smart India Hackathon.

Speech-to-Speech Translator (In Progress)
- Developing a real-time multilingual speech-to-speech translation system using machine learning.
- Exploring FastAPI and LangChain for backend and language-model orchestration.

INTERNSHIP EXPERIENCE

Emglitz Technologies - Coimbatore | Advanced Java Internship | 14 Days
- Worked on Java-based simulation projects.
- Gained exposure to servlet development and backend integration.

TechForge - Salem | AI/ML Internship | 14 Days
- Worked on machine learning models and AI-based applications.
- Gained hands-on experience in data pre-processing, model training, and basic algorithm implementation.

CERTIFICATIONS

- NPTEL — Design and Implementation of Human Computer Interface
- NPTEL — Privacy and Security in Online Social Media
- NPTEL — Cyber Security and Privacy
