CAREER OBJECTIVE

Motivated and enthusiastic Electronics and Communication Engineering student with strong knowledge of Java, C, C++, Embedded Systems and Internet of Things (IoT). Passionate about solving real-world problems through innovative technology solutions. Quick learner with excellent teamwork and adaptability, seeking an opportunity to contribute technical skills while continuously learning and growing in a dynamic organization.

EDUCATION

Kongunadu College of Engineering and Technology, Thottiam, Trichy.
CGPA: 7.82

Narayana Group of School , Gopalapuram, Chennai.
HSC:68.04

Narayana Group of School, Dhanalakshmipuram, Nellore, Andhra Pradesh.
SSLC:99.16

AREA OF INTEREST

- Internet of Things (IoT)
- Embedded Systems
- Digital Marketing
- Web Development

SKILLS

TECHNICAL SKILLS

- C
- C++
- Java
- Embedded Systems
- IoT

SOFT SKILLS

- Problem Solving
- Communication Skills
- Leadership
- Time Management

ACHIEVEMENTS

- Winner – 1st Prize in GENESIS Hackathon
- Selected for Smart India Hackathon (SIH) 2026 – Round 2

PROJECTS

AI Enhanced Ethernet Based Switch using VLSI

- Designed an AI-assisted Ethernet switching architecture using VLSI concepts.
- Improved network efficiency through intelligent packet routing techniques.
- Studied high-speed communication architecture and digital circuit implementation.

Tools Used:
VLSI, Verilog, FPGA Concepts

IoT Based Automated Solar Railway Track Inspection Trolley

- Developed an automated railway track inspection trolley powered by solar energy.
- Detects track cracks and obstacles using sensors.
- Sends real-time monitoring data using IoT technology.
- Improves railway safety while reducing manual inspection efforts.

Tools Used:
Arduino, IoT, Sensors, Solar Panel, ESP8266

INTERNSHIP

Futogen Technologies, Salem - MySQL

- Learned database design concepts and SQL query writing.
- Worked with MySQL database operations including CRUD commands.
- Understood relational database management systems and data handling techniques.

CERTIFICATIONS

- Java Programming – LeetCode
- NPTEL – Introduction to Industry 4.0 & IoT
- Embedded Systems – Taras Systems and Solutions

HACKATHONS

- GENESIS'25 Hackathon
- GENESIS'26 Hackathon
- INNOHACK 2026 – VIT Vellore
- Kreative Genesis Hackathon 2026 – KGISL, Coimbatore
- SIH(2024,2025)
- MSME(2024,2025)
