PROFESSIONAL SUMMARY

Detail-oriented Computer Science Engineering student (8.37 CGPA) and UiPath-certified RPA Developer. Experienced in building AI-integrated automation workflows, managing data analytics dashboards, and executing Salesforce administrative tasks. Committed to developing scalable automation solutions that optimize business processes and reduce manual workloads.

TECHNICAL SKILLS

RPA & Automation Tools: UiPath Studio, StudioX, Zapier
Programming Languages: Core Java, Python, JavaScript, C# (Beginner)
Web Technologies: HTML5, CSS
Data & Platforms: SQL, Qlik Sense, Salesforce Lightning App Builder, MS Excel
Version Control & IDEs: Git, GitHub, Visual Studio Code

EDUCATION

B.E. Computer Science & Engineering | Mahendra Engineering College *2021 – 2025* • CGPA: 8.37
Higher Secondary Certificate (HSC) | Nalandas Matric. Hr. Sec. School *2021* • Percentage: 84.35%
Secondary School Leaving Certificate| Holy Angel's Matric. Hr. Sec. School *2019* • Percentage: 79.2%

PROJECTS

Gen-AI Based Personalized Email Automation

- Built an automation system integrating ChatGPT and Gemini APIs to analyze email subjects and generate contextual automated replies.
- Reduced average email response time by significantly minimizing manual communication overhead.

Automated Certificate Generator and Dispatcher

- Engineered an RPA bot to dynamically generate event certificates as PDFs and distribute them to designated email addresses automatically.
- Processed and delivered digital certificates with 100% accuracy, streamlining post-event administrative tasks.

Voter Portal Automation System

- Developed an automation suite to manage voter portal operations, including new registrations, deduplication, and updating existing records.
- Automated the handling of data entry records, reducing manual processing time and eliminating human error.

Aadhaar Data Analytics Dashboard

- Designed an analytical dashboard visualizing state-wise application acceptance and rejection metrics based on Aadhaar data insights.

Email Alerts On Whatsapp

- Delveloped an automation for sending alerts on whatsapp for emails Using Zapier

Upload To DB

- Engineered a suite of offline data automation utilities and local scripts optimized for on-device execution to handle batch file processing.

INTERNSHIPS

Web Developer Intern | Static.pro *03/2025 – 05/2025*

- Contributed to front-end development utilizing HTML, CSS, and JavaScript.

Salesforce Administrator (Virtual Intern) | Salesforce *11/2023 – 01/2024*

- Configured CRM solutions and developed applications utilizing the Salesforce Lightning App Builder.

Qlik Data Analytics (Virtual Intern) | Qlik *04/2024 – 06/2024*

- Developed data visualization dashboards to extract actionable business insights using Qlik Sense.

Human Resource Management Intern | Teachnook *06/2023 – 08/2023*

- Supported administrative and HR processes through data management and operational assistance.

CERTIFICATIONS & ACHIEVEMENTS

- UiPath Academy RPA Citizen Developer Foundation Training
- Infosys Springboard: HTML5
- NPTEL Certificate: Internet of Things (IoT)
- 2nd Prize Winner: Hack-A-Bot 2024
- Finalist: CATCH 2024
