ACADEMIC PROJECT

Non - Newtonic Speed Breaker

- Developed an innovative **speed breaker** using **non-Newtonian** fluid technology that remains flexible under normal traffic and hardens instantly under high-impact vehicle loads.
- Designed and **evaluated** the system to improve road safety, reduce vehicle damage, and enhance driving comfort while minimizing maintenance requirements.

INTERNSHIP EXPERIENCE

Site Engineering Intern

- Assisted in supervising daily construction activities to ensure timely project execution.
- Monitored quality standards and safety compliance throughout construction operations.
- Gained hands-on experience in site management, material coordination, and project documentation.

ACHIEVEMENTS

- Secured **Third Prize** in Hackthon at Kongunadu College of Engineering & Technology — awarded ₹1,000 cash prize.

CORE COMPETENCIES

- Communication | Quick Learning | Smart work | Problem solving | Time Management
