AARTHI D

Python Developer

91+ 8122971464 aarthidurai005@gmail.com linkedin.com/in/aarthi-d

Summary

Motivated B.Tech Information Technology graduate with a strong foundation in Python and backend development and the Experienced in building practical web applications using Python, Flask, MySQL, HTML, CSS, and JavaScript, with hands-on exposure to database integration and application development. Developed projects such as an Event Feedback System and College Placement Prediction System to address an real-world requirements through technology. Quick learner with strong problem-solving, teamwork, and adaptability skills then seeking an entry-level Python Developer opportunity to contribute effectively and grow as a software professional.

Education

Mahendra Institute of Technology , Namakkal 2023 – 2027
B Tech -Information Technology *CGPA: 8.13/10*

Ragavendra Matric Higher Secondary School, Veeraganur 2022-2023
Higher Secondary Certificate (HSC) *Percentage: 69%*

Ragavendra Matric Higher Secondary School, Veeraganur 2020-2021
Secondary School Leaving Certificate (SSLC) *Percentage: All Pass*

Technical Skills

Programming Languages: Python
Web Technologies: HTML,CSS,JavaScript
Operating Systems: Linux, Windows
Soft Skills: Team Collaboration, Communication, Time Management, Decision Making, Problem Solving

Certifications

Generative AI for Electronics and Communication - Workshop
National Level Vibathon '26 - National Level Technical Event
Paper Presentation - ICAMT 2024

Project

Event Feedback System Python, HTML, CSS, JavaScript
- Developed a web application to collect event feedback from participants through a structured form-based interface
- Stored and managed feedback data, including ratings and comments, for easy analysis.
- Implemented logic to analyze feedback ratings and summarize responses for event organizers

College Placement Prediction Python, HTML, CSS, JavaScript
- Built a logic-based model to predict a student's placement chances using academic and skill-related input data.
- Designed the prediction workflow to process student data and generate placement outcome estimates
- Developed a web interface for students to input details and view predicted results

Internship

Full Stack Python Intern — Litz Tech Dec 2025
- Gained hands-on experience in full-stack Python development, working on backend logic and feature implementation.
- Collaborated with a mentor-led team to build and refine application modules.
- Applied full-stack development workflows and version control practices during the internship

Digital Marketing Intern — Pumo Technovation Chennai — June 2025
- Gained hands-on experience in full-stack Python development, working on backend logic and feature implementation.
- Collaborated with a mentor-led team to build and refine application modules.
