Professional Summary

Computer Science undergraduate with a strong foundation in Java, Object-Oriented Programming, and SQL. Passionate about software engineering and data-driven technologies, with hands-on experience gained through academic and personal projects. Eager to apply technical skills, learn modern technologies, and contribute to building efficient, impactful software solutions.

Education

K.S.R. Institute for Engineering and Technology, Tiruchengode, Tamil Nadu — *2023 – Present*
Bachelor of Engineering (B.E.) in Computer Science and Engineering — **CGPA: 8.14/10**

Global Matriculation Higher Secondary School, Kangeyam, Tiruppur, Tamil Nadu — *2022 – 2023*
Higher Secondary Certificate (HSC) — **Percentage: 86.14%**

Technical Skills

Programming Languages: Java, SQL, HTML, CSS, Python
Databases: MySQL
Tools: Power BI
Core Computer Science: Object-Oriented Programming (OOP)

Experience

Python Developer Intern — *July 15, 2024 – July 29, 2024*
Mayura Software Solutions, Erode, Tamil Nadu

- Learned the fundamentals of Python programming and software development best practices,
- Developed Python-based applications by implementing efficient, reusable, and well-structured code.
- Gained practical experience in debugging, optimizing applications to improve performance and reliability.

Data Analyst Intern — *June 16, 2025 – June 30, 2025*
Stack Queue Education, Salem, Tamil Nadu.

- Learned Data analysis techniques to extract meaningful insights from business datasets.
- Cleaned, Organized and transformed raw data for accurate analysis and reporting.
- Created interactive Power BI dashboards to visualize key business performance metrics.

Projects

CareerConnect – Intelligent Recruitment Platform for Streamlining Hiring and Job Applications

- Developed a recruitment platform that streamlines job postings, candidate applications, and recruitment workflows.
- Implemented role-based authentication for recruiters and job seekers using Spring Security.
- Designed RESTful APIs and integrated MySQL to efficiently manage users, job postings, resumes, and application tracking.

TurmeriCare – AI-Based Turmeric Plant Disease Detection and Crop Health Monitoring

- Developed an AI-powered system to detect diseases in turmeric plants from leaf images using deep learning techniques.
- Performed image preprocessing and model training to improve disease prediction accuracy.
- Built an interactive interface to deliver disease predictions and support timely crop health management.

Certifications

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Oracle Certified AI Foundations Associate
- NASSCOM Certificate in Artificial Intelligence & Machine Learning
- Cloud Computing – NPTEL
- Java Programming: Professional Core Java – LearnQuest (Coursera)
- IBM Certified: SQL and Relational Databases 101.

Achievements

- **Amazon Sambhav Hackathon** – Idea shortlisted among participants and awarded an Amazon gift voucher worth **500**.
- **Google Arcade AI/ML Challenge** – Earned 75 Arcade Points and achieved Tier 2 by successfully completing AI and Machine Learning Modules and Labs.
