CAREER OBJECTIVE

Motivated Computer Science Engineering student with strong foundations in programming, data structures, and database systems. Passionate about software development, problem-solving, and emerging AI technologies. Seeking an entry-level Software Engineer / IT role where I can apply technical knowledge, contribute to real-world projects, and continuously grow in a dynamic environment.

TECHNICAL SKILLS

- Programming Languages: Python, C
- Web Technologies: HTML, CSS, JavaScript
- Databases: MySQL, SQL
- Tools & Platforms: Git, VS Code
- Core Concepts: Data Structures, DBMS
- Other Strengths: Problem Solving, Logical Thinking, Team Collaboration

PROJECTS

1. Face Recognition Based Student Record System

- Developed a face recognition–based system to manage student academic records.
- Designed CRUD operations to store, retrieve, update, and manage CGPA and student details efficiently.
- Improved data accuracy and reduced manual record handling through automation.

2. AI Awareness Website

- Developed an awareness website explaining Artificial Intelligence and its growing role in everyday life.
- Covered AI applications such as virtual assistants, recommendation systems, smart devices, and automated services.
- Highlighted AI benefits and potential risks including privacy concerns, over-dependence, and lack of transparency.

3. Fake Voting Detection System

- Developed a system to improve the security, transparency, and efficiency of the election process.
- Implemented secure admin-based login so that only authorized users can access and manage the application.
- After successful authentication, the administrator is redirected to the dashboard for system management.

INTERNSHIPS

1. Web Development – CodeBind Technologies, Coimbatore

- Gained practical exposure to creating webpages and combining About, Contact, and Dashboard pages into a web application.

2. AIML – Litz Tech, Coimbatore

- Worked on a Fake Voting Detection System during the internship.
- Developed functionality to automatically detect people attempting to vote using multiple IDs or the same name from the same address.
- Implemented voting count functionality to help reduce and simplify vote-booth counting.

AREA OF INTEREST

- IOT & Robotics
- Cybersecurity
- Front-End Development

CERTIFICATION COURSES

- UniAthena: Data Visualization using MS Excel – **Jan 2025**
- AWS: Introduction to AWS End User – **Jan 2025**
- IBM : Getting started with Cybersecurity – **Feb 2026**
- NPTEL: Human Computer Interaction (12 Weeks) | **ELITE GOLD** | 95% | **Apr 2026**

EDUCATION

- B.E. Computer Science Engineering – Vivekanandha College of Engineering for Women (2023–2027) | CGPA: 8.3/10
- HSC – 70% **(2023)** | SRV Girls Hr. Sec. School
- SSLC – 80% **(2021)** | Kalaimagal Matric Hr. Sec. School

INTERPERSONAL SKILLS

- Teamwork & Collaboration
- Communication Skills
- Public Speaking

LANGUAGES

- English – Professional Proficiency
- German – Elementary Proficiency
- Duolingo Score : 16
