PROFESSIONAL SUMMARY

Detail-oriented Artificial Intelligence and Data Science professional with hands-on experience in data analytics, machine learning, and predictive modelling through real-time projects and internship exposure. Proficient in Python, Power BI, Excel, and Scikit-learn with strong capabilities in data cleaning, data visualization, statistical analysis, and insight generation. Experienced in analysing real-time datasets to support decision-making and improve operational outcomes. Passionate about leveraging analytical tools and techniques to solve business problems and deliver data-driven insights. Seeking an entry-level Data Analyst / Business Analyst / Analytics Associate role in a growth-oriented organization.

EDUCATION

QUALIFICATION	INSTITUTE	YEAR	PERCENTAGE
Bachelor of Artificial Intelligence and Data Science	K.S. Rangasamy College of Technology	2023-2026	82%
Diploma in Auto mobile Engineering	Paavai polytechnic college	2019-2022	70%

WORK EXPERIENCE

Tech Vedhu | Business Development Associative | Bangalore | 2026

- Contributed to business growth by identifying and engaging **40+ potential leads per week** through structured outreach strategies, supporting customer acquisition initiatives
- Assisted in executing digital marketing campaigns that improved **online engagement by 15–20%** through targeted promotions and coordinated campaign support
- Maintained and tracked **100+ customer interactions and lead records** using Excel-based reporting tools to support performance monitoring and sales pipeline management
- Collaborated with cross-functional teams to support conversion strategies, contributing to a **10–15% improvement in lead-to-client conversion efficiency** Analysed customer requirements and market trends to strengthen targeting strategies and support data-driven business development decisions

INTERNSHIP EXPERIENCE

Company: Synovers | Coimbatore | Data analyst intern |

- Developed and executed Data Analytics projects during a 6-week internship at Synovers.
- Demonstrated strong professionalism, dedication, and a willingness to learn within a team environment.
- Contributed significantly to company projects, adapting quickly to the work environment and fostering excellent working relationships.

CERTIFICATIONS

- Completed industry-recognized certification in **Python programming and Data Structures using Java** through Infosys Springboard, strengthening core programming logic and problem-solving capabilities
- Successfully completed **Machine Learning 101** and **Practical Machine Learning** certifications from GUVI Geek Networks, gaining hands-on exposure to machine learning concepts, model development, and real-world data analysis applications
- Strengthened applied analytics skills by completing **Scikit-learn for Machine Learning** certification from GUVI Geek Networks, developing practical experience in data preprocessing, model training, and predictive analytics techniques

PROJECT

Project on Real time crop health and predictive modelling

- Implemented a data-driven solution for agricultural monitoring, enabling immediate identification and forecasting of crop health status.

Project on Unemployment Analysis Dashboard using Power Bi

- Developed an interactive **Unemployment Analysis Dashboard using Power BI** to analyse region-wise and time-series unemployment trends through data cleaning, transformation, and visualization techniques

TECHNICAL SKILLS

- **Programming Languages**: Python, Java, HTML, CSS
- **Machine Learning**: Machine Learning Onramp
- Power bi
- Microsoft Excel

SOFT SKILLS

- Assertive
- Critical Thinking
- Adaptability & Team collaboration
