Objective

Looking for a challenging role in a reputed organization to utilize my skills for the growth of the organization as well as to enhance my knowledge in technical and commercial aspects of new and emerging trends in the dairy and food industry.

Education

- **College of Food and Dairy Technology ,Koduvalli** Sep'19 - Sep'23
  B.Tech Food Technology
  7.72

Work Experience

- **Sakthi Dairy -ABT plant , Marchinaickenpalayam** Dec'25 - Present
  Technical officer

  Manage shift-level manufacturing operations across the Ghee, Butter (CBMM), Paneer and Curd sections

  Supervise the Manual Ghee Processing Unit, overseeing batch boiling/clarification temperatures, moisture removal, aroma and grain development, and final filtration to achieve standard sensory and chemical parameters(FFA)

  Monitor the Continuous Butter Making Machine (CBMM) running at a 2,000 LPH cream capacity, optimizing churning efficiency, fat recovery, and moisture control.

  Track daily mass balance, shift-wise process losses, and maintain complete production documentation.

- **Hatsun Agro Product - DI division,Salem** June'24 - Nov'25
  Technical Officer

  Directed daily shift operations across the Milk Processing and Butter Manufacturing sections, managing floor manpower, shift allocations, and safety protocols to meet rigorous production schedules.

  Operated and optimized high-capacity processing equipment, including a 20,000 LPH Milk Pasteurizer and a 3,000 LPH Continuous Butter Making Machine (CBMM), ensuring target fat/SNF standardization, moisture control, and product consistency.

  Monitored shift-wise (MBS), performing mass balance and fat-recovery calculations to identify variances and implement corrective actions that minimized process wastage.

Projects

- **Shelf life of UV-C Treated Fermented(Mapillai Samba) rice water at room temperature - CFDT**

  This study aims to treat fermented rice water using UV-C irradiation at varying dosage levels, evaluate its resulting physico-chemical characteristics, and assess its shelf-life stability under room-temperature storage conditions.

- **Soap oil cost optimization - Sakthi Dairy**

  Developed and standardized an in-house Soap Oil formulation (Acid Slurry, Caustic, and RO Water), replacing external commercial procurement and delivering significant cost savings on plant cleaning and sanitation consumables.

- **QCC Project – Sakthi Dairy**

  Led a Quality Control Circle (QCC) project focused on minimizing fat and SNF losses in the cream-to-butter process, optimizing CBMM churning parameters and cream aging profiles to enhance butter yield and significantly reduce process wastage.

Skills

- MS Office
- Instrumentation & Equipment Handling
- Knowledge of HACCP, GMP
- SAP

Language Known

- Tamil , English
