CAREER OBJECTIVE

To secure an entry-level position where I can utilize my technical skills, adapt quickly to new challenges, work collaboratively with a team, and continuously improve my knowledge while delivering quality results.

EDUCATION

B.E. Biomedical Engineering | Kongunadu College of Engineering & Technology, Trichy | *2023 – 2027*
CGPA: 8.33

HSC (Class XII) | Shinehill Academy Matric Higher Secondary School, Valayapatti | *2023*
Percentage: 79.6%

SSLC (Class X) | | Shinehill Academy Matric Higher Secondary School, Valayapatti | *2021*
Percentage: pass

INTERNSHIPS

Medifocus India's Private Limited | Chennai
Gained exposure to biomedical equipment and healthcare technologies. Learned about the maintenance and working principles of medical devices.

Biological Bioinformatics Research Center | Trichy
Worked on biological data analysis using bioinformatics tools. Gained knowledge in data interpretation and research methodologies.

Taras System and Solutions | 6-Month Internship
Learned embedded systems development using MSP430 and STM32Cube. Worked on real-time applications and system integration.

Kauvery Hospital | Chennai (Hospital Training)
Observed and understood hospital equipment and their applications. Gained hands-on exposure in a clinical and technical environment.

TECHNICAL SKILLS

- Java
- MATLAB
- Arduino IDE

BIOMEDICAL SKILLS

- Medical equipment knowledge: ECG machines, ventilators, patient monitors, defibrillators
- Preventive & corrective maintenance
- Instrument calibration

PROJECTS

Low-Cost Knee Rehabilitation and Pain Relief System | Rehabilitation
Designed an affordable hardware system to support knee rehabilitation exercises and relieve joint pain for Patient recovery.

OrthoBarce | Orthopaedic Support
Built a hardware solution aimed at supporting Orthopaedic care and patient mobility and replacement of plaster of Paris.Instead of it use medical grade silicon.

Portable Tear Biomarker Analysis | Diagnostics
Developed a portable system to analyze tear biomarkers, supporting low-cost, accessible diagnostic Screening.

Smart Priority-Based Load Control System | Power Management
Engineered a load control system that prioritizes power distribution intelligently across connected devices.

VALUE ADDED COURSES

- Medical Coding – Thoughtflow
- Biomedical Instrumentation – Atheena Pandian Pvt. Ltd.

SOFT SKILLS

- Strong communication and articulation skills in English.
- Adaptable and quick learner.
- Leadership in team-based academic and hackathon projects.
- Critical thinking and analytical problem-solving.

LANGUAGES

- English
- Tamil

ACHIEVEMENTS

- Won Third prize on paper presentation in Kongu Engineering College on the topic of smart natural bandages.
- Won second prize in the inter college hackathon conducted by biomedical Engineering department.
- Selected in Youthtalk conduct by ICT Academy in inter zonal level.
- Shortlisted in AMTZ hackathon in Adhara Pradesh.
