Namakkal,Tamilnadu

SKILLS

- Java
- SQL
- Python

STRENGTH

- Quick Learner
- Team Player
- Problem Solver

LANGUAGES

- TAMIL
- ENGLISH

TOOLS AND PLATFORM

- GITHUB
- VS CODE
- TABLEAU

EDUCATION QUALIFICATION

- **B.Tech Artificial Intelligence and DataScience**
  Kongunadu College of Engineering and Technology, Trichy
  2023 – 2027 | CGPA: 7.8 / 10.00
- **Higher Secondary Education (ComputerScience)**
  Jeivikass Higher Secondary School
  2022 – 2023 | 72%

PROFESSIONAL SUMMARY

- Artificial Intelligence and Data Science student with a strong foundation in AI, Machine Learning. Passionate about learning emerging technologies, building practical solutions, and growing through real-world experience.

PROJECT

- **AI-Powered Virtual Lawyer Agent**
  Python,NLP,HTML/CSS | Role:Developed the web interface
  - Developed an intelligent legal assistance chatbot capable of answering legal queries using AI and NLP.
  - Designed and built the conversational web interface for user-friendly legal guidance.
- **Enterprise RAG System**
  Python, RAG, NLP, LLM, VS Code.
  - Developed an AI-based question-answering system for retrieving relevant information from enterprise documents.
  - Implemented document processing and information retrieval to provide relevant context for user queries.
- **Deepfake Detection System**
  Python, TensorFlow/OpenCV
  - Built a deepfake detection model to identify manipulated images and videos.
  - Trained themodel using image-processing techniques and machine learning algorithms for classification.

CERTIFICATIONS

- Machine Learning with AI Applications
- Core Java Programming
- Workshops on AI,Machine Learning, and Generative AI
- NPTL - Internet Of Things

EXPERIENCE

- **FullStack Development Intern** - Infoem Solutions, Namakkal
  - Worked on web application development using front-end and back-end technologies.
  - Developed responsive user interfaces and integrated backend functionalities.
  - Collaborated in project development and deployment activities.
