## 🎯Career Objective:

Aspiring Electronics and Communication Engineer with knowledge in Java and strong problem solving skills, eager to contribute to organizational growth while enhancing my technical expertise.

## 🎓Education Qualification:

**B.E. Electronics and Communication Engineering**

Kongunadu College of Engineering and Technology, Trichy

2023-2027 (Pursuing) | CGPA: 9.08

**Higher Secondary Certificate (HSC)**

Sevai Shanthi Matric Higher Secondary School, Pettavaithalai

2023 | 80%

**Secondary School Leaving Certificate (SSLC)**

Sevai Shanthi Matric Higher Secondary School, Pettavaithalai

2021 | 100% (all pass)

## 🚀Projects:

**Project 1: AI-Based Sign Language to Speech Conversion with Emergency Alert**
**Technologies Used:** Python, OpenCV, MediaPipe, VS Code, NumPy, pyttsx3, Twilio
**Description:** Developed an AI-based system that recognizes sign language using computer vision and converts it into text and speech. Implemented multilingual speech output and an emergency alert feature for enhanced user safety.

---

**Project 2: Smart Glove for Speech Impaired People**
**Hardware:** Arduino Nano, Accelerometer Sensor
**Software:** Arduino IDE, Embedded C, Voice assist app
**Description:** Developed a smart glove that converts hand movement into speech and text output using sensors and Arduino Nano, helping speech-impaired people to communicate easily.

---

**Project 3: IoT-Based Intelligent Ventilation System**
**Hardware:** Arduino Uno, L298N Motor Driver, Sensors, DC Fan
**Software:** Arduino IDE, Embedded C
**Description:** Designed an IoT-enabled smart ventilation system with automatic fan speed control and sensor based monitoring to improve energy efficiency.

## Skills:

**Technical skill:**

- JAVA and C Programming languages
- Embedded System.

**Soft kill:**

Communication | Problem Solving | Time management.

## Internship Experience:

**Artificial Intelligence Intern – The Mind IT Solution**

May 2025 – June 2025

- Completed training in Artificial Intelligence, Machine Learning, and Python.
- Learned the fundamentals of AI, ML, and real-world AI applications.
- Participated in coding sessions, technical discussions, and hands-on learning activities.
- Improved problem-solving, logical thinking, and programming skills.
- Gained practical knowledge of AI development methodologies and project workflows.

## Achievements:

- Awarded **2nd Prize** in an AI Hackathon for developing an **AI-Based Multilingual Sign Language to Speech Conversion System with Emergency Alert**.
- Secured **3rd Prize** in a Paper Presentation for presenting the project **AI-Based Sign Language to Speech Conversion**.
- Participated in **Smart India Hackathon (SIH) 2024 & 2025** for innovative problem solving and product development.
- Won **1st Prize** in a Technical Quiz Competition at Kongunadu College of Engineering and Technology.
- Participated in the **AI/ML Challenge at IIT Madras Shaastra Techathon 2024**.

## Extra Curricular activities:

- Active member of Tamil Mandram and participated in cultural activities.
- Volunteered in a World Record Event, contributing to event coordination and management.

## Certifications:

- Completed NPTEL Certification on ***Introduction to Industry 4.0 and Industrial Internet of Things*** with **Silver Medal (78%)**.
- Completed **Embedded Systems** Course at Taras Systems and Solutions.
- Completed **Java Programming** Training at Yellow Matics.
- Completed NPTEL Certification on **Computer Architecture.**
