Objective

Motivated Electronics and Communication Engineering student with an interest in software development, embedded systems, and Japanese language. Passionate about learning new technologies, solving problems, and building practical engineering solutions. Seeking an opportunity to develop my technical skills while contributing to the organization's growth.

Projects

- **AI - Based Fire Fighting Robot**
  Developed an intelligent fire-fighting robot using Arduino, flame sensors, ultrasonic sensor, relay module, and a water pump. The robot autonomously detects fire, avolds obstacles, navigates toward the fire source, and activates the water pump to suppress the fire. The system improves safety by reducing human intervention in hazardous environments.
- **Automated LPG gas Leakage Detection and Fire Alerting system**
  Detects LPG gas leakage and fire using gas and flame sensors in real time. Automatically activates alarm and sends instant alerts to users via IoT. Helps prevent accidents, property damage, and loss of life by early warning.
- **Automated Medicine Dispensor**
  The Medicine Dispenser is an automated device that delivers the correct dosage at the right time, helping users avoid missed or incorrect medication. It improves safety and convenience, especially for elderly people and patients on regular medication.

Experience

- **E-Soft IT Solution** 5th June - 23rd June
  Web Development Intern
  Completed a short-term internship exposure at E-Soft IT Solution. Gained introductory knowledge of Core Java and software development concepts.

Education

- **Kongunadu college of Engineering and Technology** 2023-2027
  B.E. Electronics and Communication Engineering
  7.89
- **Government higher secondary school** 2022-2023
  HSC
  78.5
- **Government higher secondary school** 2020-2021
  SSLC
  Pass

Skills

- C Programming
- Core Java
- Embedded systems & Iot Fundamentals

Tools

- Arduino IDE
- OrCAD PCB DESIGN
- ESP32

Languages

- Tamil - Native
- English - Intermediate
- Japanese – JLPT N5 Certified; Pursuing N4.

Professional Development Activities

- Finalist - Innohack 2026(VIT)
- 2nd-Runner-up COGNIFY Hackathon.
- SIH 2024 Participant.

Extracurricular

- Updating Current affairs.
- Learning Japanese Language.

Certifications

- JLPT N5.
- Certification Of Completion (NIT TRICHY) - Cyber security (CTO, DITTO Security).
- NPTEL - Introduction to Industry 4.0 and Industrial.
- VACAD03 - CORE JAVA.
- Value Added Course - Industrial Advanced PCB Design.

Declaration

- I hereby Declare that all the information furnished above is true and correct to the best of my knowledge and belief.
