EDUCATION

B.E (Electronics and Communication Engineering)
Kongunadu College of Engineering and Technology. (2023-2027)
CGPA: 7.55

HSC
Kongunadu Matric. Hr. Sec. School, Velagoundampatty (2022-2023)
HSC:62%

SSLC
Kongunadu Matric. Hr. Sec. School, Velagoundampatty (2020-2021)

SKILLS

TECHNICAL SKILLS

- Java
- C
- Embedded C
- HTML & CSS

SOFT SKILLS

- Problem Solving
- Leadership
- Time Management

LANGUAGES

- English
- Tamil

AREA OF INTERESTS

- Embedded developer
- Internet of Things (IoT)
- Digital Marketing.

ACHIEVEMENTS

- Awarded First Prize in the Project expo 2025,Electro Ethereal
- Awarded First Prize in the Tezario Hackathon 2025.
- Awarded Second Prize in the Genesis Hackathon 2026.

CAREER OBJECTIVE

A passionate engineer with a strong interest in technology, innovation and problem-solving. Looking to apply my skills in a professional environment, solve real-world problems and develop as a multi-faceted technology professional.

PROJECT

Real-Time Industrial Hazard Alert System

- Developed an IoT-based system for real-time detection of industrial hazards and unsafe conditions.
- Monitors gas leaks, temperature, smoke, and fire using environmental sensors.
- Sends instant alerts through buzzer, LED indicators, and mobile notifications.
- Enhances workplace safety by enabling quick emergency response and accident prevention.

Component Used:
ESP32/NodeMCU, IoT, MQ-2 Gas Sensor, DHT11, Flame Sensor, Buzzer,

Real-Time Landslide Surveillance System Using Environmental Sensors

- Developed an IoT-based landslide monitoring system using soil moisture, rainfall and vibration sensors.
- Monitors environmental conditions in real time and detects potential landslide risks.
- Generates instant alerts to improve disaster preparedness and reduce damage.

Component Used:
Arduino UNO, IoT, Soil Moisture Sensor, Rain Sensor, Vibration Sensor, Embedded C.

Health Data Information & Management System (HDIMS)

- Developed a digital platform for real-time health data collection and monitoring across healthcare facilities.
- Streamlined reporting processes and enabled efficient tracking of public health programs and services.
- Supported informed decision-making through accurate data management, performance monitoring, and analytical reporting

Tools Used:
React Native, Python, FastAPI,MongoDB, REST APIs, Dashboard Analytics.

INTERNSHIP

Infoem software solutions **Full Stack Development June 2025**

Building dynamic web applications by developing webpack, frontend bundling processes bridging seamless interactions between server.

HACKATHONS

- GENESIS'25 Hackathon
- GENESIS'26 Hackathon
- INNOHACK 2026 – VIT Vellore
- Kreative Genesis Hackathon 2026 – KGISL, Coimbatore
- SIH(2024,2025)
- MSME(2024,2025)

CERTIFICATIONS

- Java Programming – YellowMatics (2024)
- Embedded system – Taras System and Solutions
- NPTEL (Elite) – Introduction to Industry 4.0 & IoT
