Musiri , Trichy.

EDUCATION

2023 - 2027

B.E Kongunadu College of Engineering and Technology

CGPA 6.8

2021 – 2023

Government boys higher secondary school

58%

SKILLS

- C++
- Java Programming
- Problem Solving
- Teamwork
- Web development

ACHIEVEMENTS

🏆 Awarded First Prize at the Project Expo 2025, Selvam Engineering College, Namakkal, for the Transmission Line Fault Detection System

🏆 Awarded Second Prize in the SCIENTISM'24 Project Expo

LANGUAGE

tamil

English

SUMMARY

Motivated Electronics and Communication Engineering graduate seeking entry-level opportunities in python full stack developer with strong knowledge in networking, Python, and digital communication systems.

MINI PROJECT

Wildland Fire Monitoring System using LoRa technology

- Used LoRa technology to send data over long distances with low power consumption, which is suitable for forest areas.
- Collected real-time data like temperature and smoke using sensors to detect fire at an early stage.
- Transmitted the sensor data wirelessly to a monitoring system, helping in quick alert and faster response to wildfires.

Performance Analysis of SISO, SIMO and MIMO Systems

- Studied SISO, SIMO, and MIMO wireless communication systems to understand how multiple antennas improve signal performance.
- Analyzed Bit Error Rate (BER) under Rayleigh fading and AWGN channel conditions to evaluate system reliability.
- Compared the performance of different systems and found that MIMO provides better signal quality and lower error rate.

INTERNSHIPTRAINING

Nitroware technologies coimbatore - web development- June 2025l

- Learned to design responsive web pages using HTML, CSS and JavaScript. I also gained experience in building dynamic web applications and integrating frontend with backend services

CO - CURRICULAR&ACTIVTIES

Paper Presentations on Robotics, Voice Navigation Robots, Home Intrusion Detection, Automated School Bus Safety. Workshops on 3D Printers, MathFest, AI Cyber Security

CERTIFICATIONS

- NPTEL Introduction to Industry 4.0 & IoT
- Embedded system – Taras System and Solution
