OBJECTIVE

Computer Science Engineer passionate about Full Stack Development, seeking to begin my career in a dynamic organization where I can apply my skills in Java and web technologies while continuously learning new tools and frameworks.

EDUCATION

Bachelor of Engineering in Computer Science 2023 - 2027
Kongunadu College of Engineering and Technology (KNCET)
CGPA: 6.0

Higher Secondary Education 2022 - 2023
Vetri Vikaas Public School

TECHNICAL SKILLS

- Programming Languages: Java
- Web Development: HTML, CSS
- Databases: MySQL, MongoDB

PROJECTS

AI-Powered Stock Price Prediction

- Developed a machine learning model to predict stock prices using historical market data, leveraging LSTM neural networks and time-series analysis for accurate forecasting.
- Implemented data preprocessing pipelines, feature engineering, and model evaluation using TensorFlow and Pandas to improve prediction accuracy.
- Visualized prediction trends and accuracy metrics through interactive dashboards to support data-driven investment decisions.

AI-Powered Voice Interface for Data Query

- Built a voice-driven data querying interface that converts natural language speech to SQL queries, enabling users to interact with databases without writing code.
- Integrated speech recognition, NLP-based intent parsing, and dynamic query generation to deliver real-time data responses through a React.js frontend and Node.js backend.

CERTIFICATIONS

- NPTEL - Internet of Things, Software testing
- Core Java (Value-Added Course)
- Cyber Security (Value-Added Course)

INTERNSHIP EXPERIENCE

Frontline Technologies - Digital Marketing Intern

- Assisted in planning and executing digital marketing campaigns across social media, email, and search channels.
- Analyzed campaign performance metrics and supported SEO activities including keyword research and on-page optimization.

Way2Skills IT Solutions - Data Science Intern

- Executed foundational data processing & analytical workflows to extract actionable insights.
- Navigated core data science concepts to streamline data preparation tasks.
