Professional Summary

A Computer Science and Engineering graduate with hands-on experience in Python, Django, SQL, HTML, CSS, and JavaScript. Developed full-stack web applications, completed internships in web development, frontend development, and digital marketing. Strong foundation in programming, database management, problem-solving, and software development. Seeking entry-level opportunities to contribute technical skills and grow as a software professional.

Technical Skills

- **Frontend:** HTML5, CSS3, BootStrap, React.js.
- **Programming Languages:** Python, JavaScript (ES6+).
- **Backend & Frameworks:** Django, CRUD Operations, Database Connectivity.
- **Database:** MySQL.
- **Tools & Platforms:** Git & GitHub.
- **Design & Animation:** Inkscape, Synfig.

Certifications

- Django, SQL, Frontend Development, Backend Development, Python Programming | **Besant Technologies, Chennai**

Professional Experience

Cube Corpsol | *Web Developer Intern*

- Developing and optimizing responsive UI components using HTML, CSS, and **React** to enhance user engagement.

NUTZ | *Frontend Developer Intern*

- Executed frontend feature implementations and resolved technical tasks to improve platform functionality.

Atmytech | *Digital Marketing Intern*

- Spearheaded brand enhancement strategies and optimized social media presence to increase digital reach.

Key Projects

Real-Time Multi-Modal Deepfake Detection | *Main Project* | 2026

- Developed a detection system using Spatiotemporal Attention Networks and Cross-Domain Adversarial Training.
- Utilized MTCNN and EfficientNetV2 for high-accuracy image and video analysis.

AI-Powered Smart Contracts in Banking | *Mini Project* | 2025

- Integrated computer vision for automated claim verification within a Blockchain environment and Managed decentralized workflows using Ganache and MetaMask.

Dark Patterns Detection Web App | *Team Lead* | IIT BHU

- Developed a solution to identify deceptive and manipulative user interface elements as part of the Dark Patterns Hackathon.
- Designed mechanisms to detect and mitigate Fake UI patterns that could mislead or influence user decisions.
- Focused on improving digital transparency and creating a safer, more trustworthy user experience.

E-Commerce Website | Python Full Stack | 2026

- Developed a full-stack e-commerce application using Python, Django, HTML, CSS, JavaScript, and MySQL.
- Implemented product listing, category navigation, cart management, and order placement.Built backend using Django Models, Views, URL Routing, and database integration.

Tour Booking Website | Python Full Stack | 2026

- Developed a Django-based tour booking application with HTML, CSS, JavaScript, and MySQL.
- Implemented tour listings, booking forms, CRUD operations, form validation, and booking confirmation.
- Integrated Django backend, database models, and responsive frontend.

Cab Booking Website | Python Full Stack | 2026

- Developed a full-stack cab booking platform using Python, Django, HTML, CSS, and JavaScript.
- Implemented cab listings, user authentication, booking management, and confirmations.
- Used Django Models, Views, Templates, URL Routing, and database connectivity.

Awards & Leadership

- **National Second Place [2D Category]:** Animate Hackathon 2025, IIT **Bombay**.
- **Innovation Award:** Animate Hackathon 2024, **IIT Bombay** (Awarded at Whistling Woods International).
- **Best Secretary & Outstanding Project Award:** Received at AURA 2025 for leadership at RCVCET.
- **Secretary:** The Rotaract Club of VCET (2024–2025); managed club operations and high-level coordination.

Education

2026 | B.E. Computer Science and Engineering | Velalar College of Engineering and Technology | CGPA: **7.5**
2022 | HSC | Kongu National Matric Hr Sec School | Score: **86%**
2020 | SSLC | Kongu National Matric Hr Sec School | Score: **90%**
