Projects

College Event Management Hub | *React.js, Node.js, Express.js, MongoDB* *2026*

- Engineered a full-stack College Event Management Hub using React.js, Node.js, Express.js, and MongoDB, implementing RESTful APIs and CRUD operations for event creation, registration, modification, deletion, and user management.
- Implemented role-based Admin and Student dashboards with Gmail OTP authentication using Nodemailer, dynamic event data handling, responsive React.js components, and MongoDB integration for secure and centralized event management.

Personal Portfolio Website | *HTML, CSS, JavaScript*

- Created a responsive portfolio website using HTML, CSS, and JavaScript with interactive animations.
- Implemented smooth scrolling and a functional contact form to enhance user experience.
- GitHub: github.com/PUGAZHENTHI-0625
- Portfolio: pugazhenthi0625-portfolio.netlify.app
