PROFILE

Dedicated ECE student with a strong interest in Java programming, VLSI, PCB and IOT. Possess good problem-solving skills and a willingness to learn new technologies. Seeking an opportunity to start my career in a software role and contribute effectively to the organization.

PROJECT EXPERIENCE

- **Automatic Pill Dispenser (Embedded Systems)**

  Microcontroller, Embedded C, Sensors

  - Developed an Automatic Pill Dispenser using microcontroller-based embedded system to dispense medication at scheduled intervals. Implemented RTC-based scheduling and motor control through Embedded C firmware.

- **Digital Attendance Register (VLSI)**

  VHDL, Xilinx Vivado

  - Designed a Digital Attendance Register using VHDL, synthesized and implemented on Xilinx FPGA via Vivado. Verified functionality through simulation and achieved timing closure on target hardware.

INTERNSHIP

Internship – TNPL, Velayudhampalayam

- Gained hands-on exposure to industrial automation and control systems used in large-scale paper manufacturing processes, understanding real-time plant operations
- Studied and analyzed electrical/instrumentation systems including PLC-based control panels, sensors, and monitoring equipment used for process automation

AREA OF INTEREST

- Java Programming
- IOT
- PCB
- VLSI design
