CAREER OBJECTIVE

Enthusiastic Front-End Developer with knowledge of HTML, CSS, and JavaScript. Passionate about building responsive and user-friendly websites. Eager to learn, contribute, and grow through real-world projects and internships.

EDUCATIONAL QUALIFICATION

Bachelor Degree - BE-Computer Science and Engineering
College Name - Kongunadu College of Engineering and technology
Year of Passing - 2027
CGPA - 7.1/10

Higher Secondary - PGP Matric Higher Secondary School
Year of Passing - 2023
Percentage - 59.5%

Secondary - Vethaloga Vidhyalaya Matric School
Year of Passing - 2021
Percentage - All Pass

TECHNICAL SKILLS

- **Programming Languages:** Java
- **Web Technologies** : HTML, CSS, JAVASCRIPT
- **Tools** : MS Words, Power Point

ACADEMIC PROJECTS

1) Project Title: Real-Time Vechicle Accident Detection Using GPS and GSM

The Real-Time Vehicle Accident Detection System detects accidents using sensors and monitoring devices. It uses GPS to track the exact location and GSM to send emergency alerts to predefined contacts. This system improves passenger safety, reduces emergency response time, and enables faster rescue assistance.

Tech Stack:

- Accident Detection: Sensors, Accelerometer, Microcontroller
- Location Tracking: GPS Module
- Communication & Alert: GSM Module, Emergency Alert System

2) Project Title:Web-Based Smart City Complaint Monitoring and Resolution System

Developed a web application that allows citizens to register and track civic complaints online. The system enables authorities to manage, assign, and monitor complaint resolution efficiently. It improves communication between citizens and municipal departments for faster issue resolution.

Tech Stack:

- Operating System: Windows 10/11
- Frontend: HTML5, CSS3, JavaScript, Bootstrap 5
- Backend: Node.js, Express.js
- Database: MongoDB
- Development Tools: Visual Studio Code, Git, Postman

INTERNSHIPS

Internship Company 1: Futogen Technologies under the Title UI/UX Design. **(JUNE 2025)**

- Assisted in designing user-friendly web and mobile interfaces through wireframes and interactive prototypes, collaborating with developers and designers to refine layouts, colors, and interactions.
- Conducted user research and usability reviews to improve design decisions, using tools such as Figma/Adobe XD.

Internship Company 2: Way2Skills IT Solution under the Title Data Science. **(OCT 2025)**

- Worked on data cleaning, preprocessing, and exploratory data analysis, creating visualizations to present key insights and trends.
- Built and evaluated machine-learning models using tools such as Python, Jupyter Notebook, and Power BI.

CERTIFICATIONS & ACHIEVEMENTS

- Certification in Value Added Courses like Java and Cyber Security
- Participated in work Shop on Full Stack and PPT Presented on Cyber Security
- Attended Seminar based on Emerging Technologies

EXTRA-CURRICULAR ACTIVITIES

I) **NSS Volunteer –** Participated in social service activities
