PROJECTS

1 Invoice Management System

Technologies: HTML, CSS, Tailwind CSS, JavaScript, Django

- Developed a web-based invoice generation system.
- Implemented dynamic invoice creation and PDF-ready layouts.
- Worked on GST fields, duplicate GST number testing, and invoice templates.
- Fixed alignment and UI consistency issues across multiple pages.

2 Efiling360 Landing Pages

Technologies: HTML, CSS, Tailwind CSS, JavaScript

- Created SEO-friendly landing pages for services such as ITR filing.
- Implemented responsive card layouts and CTA button alignment.
- Added canonical tags, meta descriptions, and optimized page structure.

3 Authentication UI Components

Technologies: HTML, CSS, Tailwind CSS, JavaScript

- Built login and registration forms with password visibility toggles.
- Improved hover, focus, and border styling for form controls.
- Ensured responsive design and accessibility.

4. UI Components from Figma

- Converted Figma designs into pixel-perfect UI using CSS
- Built reusable components like cards, badges, and forms

Internship / Work Experience

Frontend Developer Intern - Chadura Tech ***May 2025 - Present***

- Developed responsive web pages and reusable UI components.
- Collaborated with team members to fix bugs and improve layouts.
- Used Git and GitLab for version control.

Career Objective

To secure a Frontend Developer position where I can apply my technical skills, contribute to impactful projects, and continuously enhance my knowledge in modern web development technologies.
